Idaho Receives Eighty New Housing Units

Eighty new temporary housing units have been completed as temporary emergency "exteriors" about the University of Idaho in Moscow, according to a statement released by the university official. The new units will be used to provide temporary housing for students who have been displaced by the recent fire. The units are being maintained by the university's temporary housing program.

Board Announces Election Results

Electa Jane Hutton defeated Gerald Merrill for the new U.S. Senate seat, and Jane Whitaker was elected to the U.S. Senate for the new seat. The win is a major victory for the Democratic Party and a blow to the Republican Party. The Democratic Party is currently in the majority in the Senate.

Vandals Need Cougar Win To Tie For First Place

Wsu-Ideo-Dre-Osc Playoff

When Idaho's Silver and Gold Cougar meet tonight at 8 p.m., the winner will be the champion of the 1946-1947 season. The game will be played in the University Fieldhouse. The winner will advance to the next round of the 1946-1947 season. The game is expected to be a hard-fought battle for first place in the Northwest Conference.

Council Approves Rushing System

After a conference last week, the Idaho Student Council has approved a new rushing system. The system will allow students to rush for their class, fraternity, or sorority. The system is expected to be implemented in the fall of 1947.

Red Cross Drive Begins Friday

March 11 marks the beginning of the annual Red Cross drive on the campus of the University of Idaho. All students, faculty, and staff are encouraged to contribute to the drive. The drive will run until Friday, March 11, and will be the final drive of the year. The goal of the drive is to raise funds for the Red Cross.

Engineers Needed

Pacific division of the U.S. Geological Survey, with headquarters in Seattle, is negotiating with various engineering firms in the region to provide service for the Pacific division of the U.S. Geological Survey. The negotiations will continue until the survey has been completed.

President and Mrs. D. H. Johnson, Dr. W. H. Whitaker, and Mrs. E. E. Johnson, all members of the faculty, are expected to attend the meeting.

Lindsay Addresses Various Groups

Michael Lindsay, a former member of the Idaho Assembly, spoke to a group of faculty members at the University of Idaho. The meeting was held in the president's office. The meeting was expected to be attended by all faculty members.

RB Club Discusses

The Red Bandit Club discussed the recent changes in the campus newspaper, the Idaho Student. The club discussed the changes in the newspaper and the reasons for the changes. The meeting was held in the president's office.

Admissions Report Calendar Dates For Semester

Over 200 appointments have already been reserved for students who have applied for the fall semester. The appointments will be scheduled on a first-come, first-served basis. According to Mr. DeWitt, any student who has applied for admission will be notified of the appointment date and time.

Juniors Schedule Class Week

Scheduled for March 33-3, 2023, includes a variety of classes, such as English, history, and science. The classes will be held in the usual locations, and students will be expected to attend all classes.

Professor Speaks To Canadians

Idaho's achievements in rural development, particularly in the mountainous areas, were described by Senator David D. Clark, Idaho's delegation to the Senate, in his opening speech at the University of Idaho. The speech was expected to be attended by all faculty members.

Oh, what a Earthquake!

The Idaho Earthquake, which occurred on the campus of the University of Idaho, caused minor damage to several buildings. The earthquake was expected to be felt by all faculty members.

Seniors Tell Plans For Annual Week of Festivities

Events Include Dance, Assembly And Serenade.

Climaxes the annual senior week will be the senior ball with the theme "Thanksgiving," and the music of the quarter will be provided by Dr. Jack Foy and the Idaho State College Glee Club. The ball will be held in the university's gymnasium. The ball will be held in the university's gymnasium.
Personality

of the week

Now that fresh are over and everything is settled, the saying "the calm before the storm" seems true. Over the past few months of the campaign, the weather has been a bit unpredictable, but now, with the election behind us, the climate seems to have settled down. The forecast for the next few weeks looks promising, with a high chance of stability and predictability.

Over the Hill

with JACk SErRman

Old Mother Hubbard went to the sugar bowl to get her daughter a cup of sugar. She got there as the sugar bowl was empty and now she is sulking. Her mother wanted to say something to her about it, but now she has nothing to say.

TIPS FOR VETS

by GEORGE

Remember the day in the life when the days were long and the nights were short? When the coffee was strong and the promotions were frequent? When you were always on the go? Well, it's time to slow down and take a moment to enjoy the simple things in life. Whether it's a warm cup of coffee in the morning or a quiet walk in the park, make sure to take the time to appreciate the small moments.

A Forestry Student; Pardon My Limbs

An interview with Vera Moseau

The following is the random thought that it's rather strange that Vera Moseau is in the only girl registered as a forestry major, as she asked her “low came?” She explained that she had the same interests that her fellow students had— that is, "how much wood would a woodchuck chuck if a woodchuck could chuck wood?"

A freshman at State, Vera, also known as Reuben Moseau, registered in the College of Letters and Science for the first semester. She began to forestry school because she had already decided that this was where she was going to go.

Not being a forestry major, she is taking biology, English, physical education and general courses, but enjoys some of her forestry classes and believes the field holds many opportunities. Wood conservation, in fact, is something Vera is considering at the present.

Working in the forestry department and giving more attention to matters in the county where her stepfather farms, Vera has a little practical experience. She also has other experiences that may help her in the field.

Vera is a member of the last year's band, where she worked at a ranger station when she was a junior. She has also worked, operated a radio, and kept book reports for the forest service.

Scots are a major interest with Vera, and she has a strong interest towards the future. She entered high school in Coos Bay, Salem, and attended high school in Portland, Oregon.

Courses Explained

Work required the maximum of the minutes, hours, and general units, and for the courses, the student must complete the work and pass the examination. Work, such as English, physics, and chemistry, can be completed either in the morning or in the afternoon.

ASUI Board Holds Weekly Meeting

Weekly meeting of the ASUI Board of Directors was held Monday at 4 p.m. in the room of the University of Washington, and the session was held.

Dr. Dave Leaves NORCO Unit

Dr. Herbert R. Blewett, physician for the NORCO unit, and his wife, Helen, have left for the city.

Dr. R. J. W. Biggs, for the community center in Beaverton, has returned to his duties.

Mr. H. E. Bowers, university librarian, was seen to have returned from the library.

When the coffee was being served to the guests, the guests were served a small sandwich on a plate. The coffee was served in a small cup and saucer.

SOCIALLY SPEAKING

Some activities of the students are being held for the benefit of the students.

Student Build Band Saw

A small mechanical engineering student was working on a project for a company in the area. He is building a band saw and will be in charge of the machine.

 Killed Man's Children: A Surprising Fact

A surprising fact is that a man's children were killed by the machine. The machine was built by a student who was working on the project for the company.

In the meantime, the machine was being used by the students. They are studying the machine and the students are using the machine to build the band saw.
Summer School Offers Many Courses

Assemblies Prove Popular Feature

Summer school sessions of 1945 will provide great variety of courses and activities with work to be offered by 30 departments having more than 150 course offerings. Many classes are being held simultaneously in the various buildings on campus in order to give the university student and other interested persons an opportunity to pursue their studies in several fields. The whole program of courses for the fall has been expanded, with work in college fields particularly emphasized. Details of courses will be found in the catalog, chemistry, physics, botany, zoology, and geography. The courses and additional talent will be provided by the regular university faculty. Course work in business, economics, and art will be expanded.

For the first time in many years, a meeting of the faculty in Philomath is planned. Again facilities of the entire university will be used to experience in teaching them the procedures of summer school sessions which have been developed in previous years. Experiments in teaching, such as laboratories, will be expanded.

Program of frequent half-hour assemblies proved a popular feature of this institution. The program of assemblies of this type is planned for the fall semester.

The student group will contain normal freshmen, sophomores, juniors, and seniors. It is planned for students to have already indicated their intention of school by the fall semester of their senior year.

The media opens July 20 and the first term closes July 20. The second semester begins July 27 and class closes September 6.

More's More About W Or CARES

While visiting your school for best advice and to supply home needs, you may have the opportunity to hear a lecture by your favorite author. The faculty of the university provides and maintains a complete selection of the current year's publication. The lecture is free of charge, and all students are welcome to attend.

Students

Research Society Will Hold Dinner Meeting March 4

In order that a supplement to the regular meeting of students of the department of chemistry and physics may be provided, the Research Society of the University of Oregon will meet on Monday, March 4, in the basement of the Chemistry Building at 7:30 p.m. The meeting will be devoted to a discussion of the problem of the nature of the universe, and to the development of the methods of research used by scientists in this field.

Each student is required to select a field of study and to study it under the direction of a member of the faculty or in a laboratory of the university.

Professors Speak at Dairy Feast

A hearty budget schedule is prepared for the dairy department of the University of Oregon. The budget is for the fiscal year 1945-46 and includes the following items: maintenance of the dairy building, purchase of equipment and supplies, and various other expenses. The budget is submitted for the approval of the university administration.

Engineers Receive Supplies

F. S. Thompkins, head of the department of mechanical engineering at the University of Oregon, has been awarded a new supply of mechanical equipment for the department. The supply includes a number of new pieces of equipment, such as a machine for the production of metal parts, a lathe for the production of parts of metal and plastic, and a few other pieces of equipment.

School Conducts Career Day

A day of study on the theme of the career of the university student was conducted on March 4. Students were given the opportunity to visit the different departments of the university and to discuss their future plans with the faculty. The day was concluded with a banquet.
