Idaho Might Have Millions From Research Results
Research will result in the State of Idaho having 200,000 acres of forest land, which will produce more than $10 million in timber each year.

Gem Staff
A general meeting of the dusk staff of the Gem will be held Tuesday, Oct. 14, at 11 a.m. in the Alpha Chi Omega house. Donna Holcomb will preside.

Students Interested in Becoming Student Assistants Should Contact the Office of Student Assistance

Military Increase Staff Of Department
Recent increase in the staff of the military department brings the present total to two officers and four non-commissioned officers. The new additions include Pvt. Yr. Going, Pvt. John Matson, Pvt. Marshall E. M. Harris, and Pvt. Marshall E. M. Harris.

Now I Am A Man—Or Am I?

And note that I have become a man I have put away childish things. Those who are married are accountable to the Lord for how they conduct themselves; and those who are not married are accountable to the Lord for how they please. But it is better to marry than to continue in virginity. And if they marry, they have not sinned; and if they continue in virginity, they have not sinned. It is better not to marry at all. But he who stands being single has a better choice about this than he who marries, and so also the woman. But each one should have such confidence as he may have, without being under compulsion. He who is unmarried cares about the things of the Lord, that he may become pure. He who is married cares about the things of the world, how he may please his wife. The man's duty is to seek opportunities in the things of the Lord. The woman's duty is to please her husband. (1 Corinthians 7:29-36)."

Pep Band
Snowy Taylor has been appointed as leader of the pep band, according to A. A. Shoff, head of the band. Perez Riveros, Katheine Hedges, and Sister in the baseball club will be the band leaders.

University Wins Livestock Show
First place in the Pacific Intercollegiate Livestock Show judging competition Saturday night went to Milk and the Small Animal Conservation class. Dr. W. E. Berg, Professor of Animal husbandry, announced that the winner was the University of Idaho. The livestock on display included steers, steers, and steers. The grand champions were the University of Idaho steers. Miss Betty Johnson, Mrs. J. E. Johnson, and Mrs. J. E. Johnson, won the overall championship for the University of Idaho. Miss Betty Johnson, Mrs. J. E. Johnson, and Mrs. J. E. Johnson, won the overall championship for the University of Idaho.

Frog Women Go To Orientation Held By AWS
An orientation class, the first of three planned for the semester, will be held Tuesday evening at 6:30 in the auditorium. The class will be conducted by a group of women, and will include a tour of the campus and a discussion of the responsibilities of the women's organization.

Faculty Urges Students To Be More Alert To Fire Hazards
A fire hazard meeting was held Tuesday evening at 6:30 in the auditorium. The meeting was attended by a group of faculty members, and was conducted by Dr. E. E. Johnson, head of the department of education.

Audio-Visual Department

President J. E. Johnson, dean of the college, announced that the Audio-Visual Department will be held Tuesday evening at 6:30 in the auditorium. The meeting was attended by a group of faculty members, and was conducted by Dr. E. E. Johnson, head of the department of education.

Vandals Entrain Tonight For Marquette Game At Milwaukee

Hilltoppers Use Passing Attack; Cougars Win

An Idaho football team, eleven brothers by team name, will entertain tonight for Milwaukee, Wisc., where they will clash with the University of Marquette in an exhibition game. The Vandals, looking like a football team at times were unable to stop the University of Oregon at last Saturday to the tune of 16 to 0.

The Idaho team will work out under lights at Racine, Moun- tana, Wednesday night at Montana State University in advance of the Idaho Friday morning that will work on Marquette’s field for the next two nights.

A hand on the team has not been named, but Coach J. A. (Jim) Brown says, "There is a week until the Idaho game against Washington State."

Jack Brown and Russel will be the only two of the Idaho team who will be absent from the Idaho game at Marquette. Russel is out with a sprained ankle and Jack Brown is out with a sprained ankle.

Marquette has played two games this year, the first against Wisconsin and the second against Princeton and Princeton upset the University of Wisconsin. Princeton, the top of the Big Ten, upset the University of Wisconsin with an outstanding defense.

The game on Thursday will be a big one for both teams. The Idaho team is set to win the game.

Periods Arranged For Swimming

The athletic department arranged Monday evening a period for the use of the swimming pool. The period will be divided into classes for those desiring lessons in swimming, with lessons held on the 4th and 5th periods in the pool. A swimming schedule starts with the morning practice, followed by afternoon practice from 1 to 3. Lessons will be held on Tuesday nights, and mixed swimmers will be held on Wednesday, Thursday, and Friday during swimming lessons.

Starting Tuesday, October 13, swimming periods for women will be held during the following periods:

Tuesday: 5 to 6
Wednesday: 5 to 6
Thursday: 5 to 6
Friday: 5 to 6

Aerial Game Wins

For Willis Sweet

Relating to the career of a prominent Idaho football player, Willis Sweet, and his attempt to break Marquette’s records, the game will be held on Thursday. Willis Sweet has broken the records of Marquette’s swimming pool.

The game will be held on the 1st period and the Idaho team will be led by Willis Sweet.

New Plastic Resists Heat, Acids, Electricity

"Teflon," Product of Group Research Solving Difficult Problems in Radar, Television and Industry

A material that does not melt was being looked for a new application of a particular type. The material was to be used as a sealant for the sealing of metals. The new application was for use in the production of metal parts, chiefly in electrical equipment.

During the study, the chemical composition of the material was analyzed using a new technique called C.T.S. In contrast with the latter, a chemically resistant gas, called "Teflon," was used to dissolve the material. It was found that "Teflon" would not dissolve in the liquid.

Structure and Properties

"Teflon" is made by polyvinylidene fluoride, a material that is easily malleable. It is used in a variety of industrial applications, including electrical insulation and medical equipment.

or proteins. For this reason it may be used as an sealant for laboratories and electrical equipment. "Teflon" is also used in the production of metal parts, chiefly in electrical equipment.

Forms of "Teflon" Available

By use of specific techniques, the new plastic can be extruded as rods, tubes or wire. In present markets, extension rates are low in comparison to other thermoplastics because of its resistance to stretching.

Cooer: More about "Teflon" are in Du Pont Technical Staff Bulletin No. 1. Send your requests to the Division of Technical Services, Du Pont, Wilmington, Delaware.

Questions College Men ask about working with Du Pont

"What is Du Pont doing at the moment?"

"Do you want to work with Du Pont?"

"What will it be like to work at Du Pont?"

The first position of a new year at the Du Pont Research Laboratories has been filled. "Du Pont," one of the many products which are the result of research, is the new position. "Du Pont" men, who are working as a team, contribute to a better America for you and I.
