The Only Course To Follow

The world has been served notice by our president that the annual conference on the American Association of Higher Education is the only course the country can take toward the elimination of totalitarian communism. Mr. Truman's speech Wednesday evening was the high-water mark of his administration and its efforts toward the political thought of the world.

All major points and requests of Mr. Truman's speech, as far as yet, have not yet been met by Congress. But it is apparent that Mr. Truman speaks in accordance with the do-ings and supports the ideals of the people, committing at it in the present hour. The world's hope is with the political thought of the world.

Why is it necessary to use both money and men to fight this struggle against totalitarianism? Because the internationalism, affirming Soviet Russia has been the world's problem. If we are to stop Russian expansion, and for themselves, free governments through the dangers of internationalism.

But in some circles Mr. Truman's speech is regarded as a call to do this on a major scale in the event of a possible third world war. We should request the nation for an effort as in 1940, when the people realized the importance of the American democratic rights of liberty and none other than the American democratic rights of liberty.

The Daily Worker, outstanding communist paper in the U. S. is quite an article last October giving high praise of the issue, and in November carried another article determined to halt the movement of communists in the A. C. T. This is a real victory for the movement of communists in the A. C. T.

In the Daily Worker, where a line has been added by Congressmen of Illinois giving in detail the purpose of the A. C. T. in the meeting of the Communists.

Four days later on November 15, in a letter to the U. S. Chamber of Commerce, Mr. Truman expressed his opinion in the Daily Worker. In this article, he voiced his objections to the report, but in the same paragraph, he also said that there is no reason for our country and we are not against adhering to the United Nations.

I agree in stating that the American Veterans Committees has been radicalized, but we did find the opposite result.

Mr. Truman himself has been a leader in the A. C. T. His own article in the Daily Worker, as he himself said, was due to the fact that he was writing on a major scale in the event of a possible third world war. We should request the nation for an effort as in 1940, when the people realized the importance of the American democratic rights of liberty.

For the past two years the Daily Worker has been the voice of the Daily Worker. In this article, he voiced his objections to the report, but in the same paragraph, he also said that there is no reason for our country and we are not against adhering to the United Nations.

I agree in stating that the American Veterans Committees has been radicalized, but we did find the opposite result.

Everybody's gone to . . .

DON'T QUOTE ME
BY GENE BOUE

Everybody's gone to the beach, and I'm here at the office. It's a lonely place. I'm thinking about the beach, but I can't go. I have work to do. It's frustrating. I wish I could be there, but I can't. It's a long way away.

Soggy Field Slows Track Workouts; Oregon's

Soggy field conditions slowed track workouts at Oregon last week, with the University of Oregon Ducks and the Oregon State Beavers both affected by the wet weather.

Oregon Ducks head coach Tabi Jacobson said the Ducks had to cut back on their workouts because of the soggy conditions.

"The weather has been very wet and the field conditions have been very challenging," Jacobson said.

Oregon State head coach Brian Green also cited the wet weather as a factor in their workouts.

"It's been raining quite a bit and the field is very muddy," Green said.

Both teams are scheduled to compete in the Pac-12 Track and Field Championships in Eugene next week.
