Political Forum

Online are the plaudits of the United and Independent parties for the coming election.

INDEPENDENT

The Independent and its friends demand a study to be made of the present AIS election from the point of view of the organization. We feel that the Independent has a right to be represented in the AIS election. It is only fair to be represented by a person who would give more satisfaction to the organization.

We specifically favor:

1. Increased student responsibility in the AIS election.
2. Greater opportunity for student initiative in the AIS election.
3. Increased participation in the AIS election.
4. Greater acceptance of the AIS election.

The independent party, therefore, urges the AIS to take appropriate action to increase the participation of its members in the AIS election.
