The Broncos, who have shown improvement in recent years, will be a formidable opponent. The team is expected to put up a good fight and could pose a threat to the Vandals.

The game is set for Friday night, with the kickoff scheduled for 8 p.m. at the Vandal Stadium.

WHO GETS THE LION'S SHARE?

In 1953 the Unioin Oil Company of California did a $250,000,000 business. That's big money. Who gets the profits?

The employer?

In wages and salaries the Union Oil employees earned $50,000,000. The average per employee is $5,000.

The tax collector?

He did all right, too. Federal and other taxes took $21,821,000. (This does not include $55,250,000 additional in federal taxes which the company paid for the government.)

The stockholders?

No, the stockholders did not get the lion's share. Nor did the workers.

Well, who did get the lion's share?

After we replacitated working capital by $20,000,000, the president estimated that the company's profits would be $20,000,000.

The profits were divided among the stockholders. Over the 10-year period, the average return to the stockholders was $11,000,000 or 51c per share on the average of 21,821,000 shares outstanding.
