Jazz Quartet Will Play In Pullman

WASHINGTON STATE COLLEGE—Something new was being offered at the University of Idaho. The University of Idaho Jazz Ensemble was playing in Pullman.

Dr. Dave Ritterbuggie was leading the band. The band is made up of students who had been selected from all over the state.

The music was very good and the band played for about an hour and a half.

Junior Men Are Tapped By Society

Sorority and Broke: "Sorority and Broke" is a national military honor for officers who have completed one year of military training.

The Sorority and Broke award is given each year to the top junior in the university. This year, the award was given to John Doe.

Paderborn Educator Will Speak

Prof. Dr. Helmut Smirnoff from Germany will be the guest speaker at a meeting on January 22nd.

The meeting will be held at 6:00 PM in the University Union.

Vacations Changed For Next Year

The Andersen-Chance has decided to change their vacation plans for next year.

They will be traveling to Europe and spending a month in Paris.

Arg Staff Meeting

All members of the Arg staff will be meeting at 3:00 PM on Monday, January 16th in the Arg Staff office.

The meeting will be discussing the next issue of the Arg.

Noted Organist Will Perform

E. Power Biggs of Boston, the world-renowned organist, will come to the University of Idaho to perform on the organ at the University'snewly-renovated Roosevelt Auditorium on January 19th.

Biggs, who is scheduled to perform at 8:00 PM, is one of the world's leading organists and has performed in many prestigious venues around the world.

The concert is free and open to the public.

Borah Theater Will Show Life Of Russian Composer

Joe Carlin, a talented musician and teacher at Idaho State University, will present a one-man show at the Borah Theater on January 20th.

The show will feature Carlin's interpretation of the life of the great Russian composer, Pyotr Ilyich Tchaikovsky.

Carlin will be accompanied by a live orchestra.

The show is free and open to the public.

The Board: They Spend Your Dough, Hear Your Woe, And Run The Show

The Idaho Argonaut's Editorial Board is made up of the following students:

The Editorial Board is responsible for the editorial content of the Arg and makes decisions on matters of policy, including the selection of student representatives to the ASUI and the determination of the composition of the Board.

The Board meets weekly to discuss important issues and make decisions that affect the students of the University of Idaho.

The Board's mission is to provide a forum for the expression of student opinions and to serve as the voice of the student body.

The Board's decisions are made through a consensus process, and all members of the Board are encouraged to participate in the decision-making process.

The Board meets every Tuesday at 6:00 PM in the Arg Schlesinger Room.

The Board's website can be found at: http://www.idaho.edu/argonaut/

How to be efficient and save money

What young people are doing at General Electric

In 1954, our greatest disaster may be work-

ing people. This country’s demand for elec-

tric goods will be 50% greater than it is today. But there will be only 11% more workers. How can production per man be boosted without using more than the present number of men?

Automation: Continuous Automatic Production

Automation is a way of manufacturing based on the principle that all manufacturing operations are made up of a series of similar tasks which are to be performed over and over again. The machine tools of industry are designed to handle these repetitive operations automatically. Automation is designed to cover everything from the maintenance of equipment to the management of the entire plant.

Volleyball Play

LED BY ALPHA PHI AND DELTA GAMMA

By STAN FRANKEN

The volleyball team, Alpha Phi and Delta Gamma, have been practicing in preparation for the upcoming games. The team has been working hard to improve their skills and strategies.

In our contribution, we will focus on some key elements of the game. We will discuss the importance of teamwork, communication, and individual skills.

We believe that by understanding these concepts, our players will be better equipped to succeed in their matches.

Teamwork

Teamwork is a crucial aspect of volleyball. It involves the cooperation of all team members to achieve a common goal. This requires effective communication, trust, and mutual support.

Communication

Effective communication is essential for success in volleyball. It includes coordinating plays, calling out calls, and passing the ball accurately. Clear communication ensures that all team members are on the same page, allowing for smooth execution of strategies.

Individual Skills

Individual skills play a significant role in volleyball. Players should focus on improving their attacking, blocking, hitting, and digging abilities. Developing a strong foundation in these skills will contribute to the team’s overall performance.

Huskies Bewildered At Offensive Switch

Idaho, lightly ranked in the Northern Division basketball race, found itself behind early on in the third quarter. The Vandals were able to hold the visitors to just 39 points, as Idaho shot just 39 percent from the field and 26 percent from the free throw line. Idaho also shot just 19 percent from the three-point line.

Vandals' Coach Jerry Miller commented on his team's performance: "We had a good plan going in, but we didn't execute it well. We had some turnovers and didn't get good shots. We have to work on our defense and get better at making baskets." Idaho's Coach Gary Powers responded: "We didn't play our best game, but we were able to hang in there and make some key baskets to keep it close. We need to work on our defense and get better at rebounding."
