Most Students Favor Long-Spring Vacation

In a poll of 100 students on campus, nine out of ten said they would favor a long spring vacation, or a week for Easter, instead of the present system. Some of the reasons for wanting to change the vacation arrangements are:

1. Thanksgiving vacation was over too early, and the semester too short.
2. A vacation during the Christmas holidays would be much needed in the spring in order to keep students from leaving the campus during the holidays.
3. Spring vacation would allow more time for outdoor recreation.
4. The vacation would be longer, giving students more time to enjoy themselves.

*You've got to know all of those things to do your work. I trained with the telephone company and the technical college on the installation, repair and testing of this telephone equipment and service for which I am responsible. I worked in the central office of a Bell System company and developed a new form of process for installing the new equipment. I understand that it has been installed in the Bell System. I have been in the central office of a telephone company in your town. Even two city blocks are full of opportunity.*
