PHI DELTA TURTLE RACE
MAY 10
EVERYONE COME!

PHI UNEARTH B. P. D. T. R. ORIGIN
IN ANCIENT TEMPLE OF OOPAPADOU

It all came about as a fitting tribute to the efforts and discoveries of one of Idaho's little known members — a student of archaeology, raconteur and dilettante. This fabulous personality is none other than the world renowned Dr. Palaisstitch Hitchkenbrugher, B. M. D., B. P. D. T. R., an alumnus of Idaho Alpha of PDT in 1908.

The fortunate and momentous discovery came about during a venture into the heretofore unpenetrated tropical rain forests of upper Shumira in a search for commercial deposits of lime, a basic ingredient of white wash. In making this strategic search our esteemed student quite accidentally uncovered a fabulous ancient but enlightened civilization.

It happened one March morning, when our man, spurred to fervent effort by the ensuing marton season, was able to clear through the brush obscuring the crumbling remains of what was apparently the sacred temple of a heretofore undiscovered civilization. Upon the walls of the edifice were a series of remarkably preserved inscriptions whose secret was locked from us until the discovery of the Endweiler stone, key to the language and civilization of Oopadou, by our good doctor in subsequent explorations.

The hieroglyphics revealed that the people of Oopadou had developed at one time a civilization for more advanced than those of Egypt or Greece. In fact, their civilization had been developed to the extent that competition and war were threatening the extinction of the race. Then a wise philosopher appeared from out of the jungle to save the people of Oopadou from extinction.

This wise man and some farseeing investors opened the first turtle track in Chapamperos, capital of Oopadou. Soon competition and wars were forgotten and the people of Oopadou turned to turtle racing as a means of venting pent up energies. A great culture of arts and music was built around the turtle motif. The key person in this civilization was the turtle trainers, vestal virgins selected from the opoupadouan puchr rude. There were no income taxes, for the government was supported by a cut into the winnings placed by the people. In fact it was this cut that finally swallowed up turtle racing and the Oopadouans.

ON the historical account of the Journeys of Dr. Hitchkenbrugher, the humanitarian spirit of the brothers of Phi Delta Theta was moved and we decided to embark on a trip to save civilization from extinction by establishing this remarkable institution upon this campus. No longer must the men of Phi Delta Theta be troubled by competition to 1 ratio, etc. for they may now turn to turtle racing. So come, my compatriots of Phi Delta Theta. It is your halcyon in these troubled times.

PHI DELTA THETA PLANS FOR FIRST ANNUAL TURTLE DERBY

Each women's living group to train derby turtle.
B. P. D. T. R. WEEK INCLUDES SERENADE, DINNER, PARADE

What in the hell is B. D. T. R.? This question seems to have plagued the minds of the more observant members of the student body the last two weeks. Well, we have at long last decided to divulge our secret. Those initials do not mean "beer party at Delta Thalophila rush" nor does big Phi Delta Theta reunion fit the bill. What they do mean is BIG PHI DELTA TURTLE RACE!

The first annual Phi Delta Theta Turtle Derby will be held on Monday, May 10.

Each of the women's living groups will receive a turtle to train for the Derby. The group that wins the race will win for its sponsors a large travel trophy which will be appropriately decorated by turtles.

HOW TO CARE FOR YOUR CHALOPUS

One of the most difficult things that must be done is to train turtle from a small puchr to a large turtle. It is necessary to train the turtle from the time it is first captured to its full size.

For those who are interested in raising their own turtles, there are several books on the subject available at the library. These books contain detailed information on how to train turtles for racing.

THY CHALOPUS:

Thy charge, perch'rest thee freely, therefore thouest must provide a correct in which to encamp thy beast when it is not in motion.

THY LOVNEW COMPANIONSHIP: On freshen should be in the same tur- to that of turtle at all times, day or night.

The Idaho football squad is set into this 16-day of spring practice soon as the Vandal coaching staff has settled on a schedule to overwork the team.

We are very experienced in many ways and generally have a long way to go," said Staley yesterday.

The Vandals will go through their third full practice tomorrow morning at 9 a.m., and another one at 5 p.m. this afternoon. The Vandals will then practice each day with the hope of having a complete team by the end of this week.

Staley was happy to feel rugged and in great shape, but he reported no new injuries.

One problem, though, was the weather. A strong cold front moved in from the west yesterday, bringing wind and snow to the campus.

Staley said he had been pitching for a few days, and had been feeling much better. He was happy to see the weather improvement.
