Key Planning ‘A Big Shoo’

The Idaho Argonaut

VOLUME 64, NO. 51
UNIVERSITY OF IDAHO, MOSQUOIO, IDAHO

April 26, 1962

Out-of-State Scholarship Was Adopted

What is considered to be one of the most challenging scholarly opportunities for the present generation is the scholastic activity and attractiveness of the school. This opportunity is open to all students who wish to participate in the program. The school provides an excellent opportunity to gain experience in the field and to develop a sense of responsibility and leadership. The school encourages students to participate in the program to the fullest extent possible. The program is open to all students who meet the eligibility requirements.

Small Crowd Attends Last Play of Year

Crowd, wearing the Thursday and Friday night performance at the State Capitol Thursday night. The audience was a fraction of what it was expected to be. The reason was the large production of the student-produced plays.

Georg Aumann Of Germany To Teach Mathematics At University Next Year

Dr. Georg Aumann, an internationally recognized mathematician from Berlin, Germany, will be among the distinguished faculty of the University of Idaho next fall.

Aumann, who has been a professor of mathematics at the University of Berlin for the past 15 years, is internationally known for his work in the field of algebraic geometry. His research has contributed significantly to the advancement of the subject, and he has published numerous papers in prestigious mathematical journals.

The University of Idaho is fortunate to have such a brilliant scholar join its faculty. Aumann's presence will undoubtedly enhance the quality of our mathematics department and provide our students with the opportunity to study under one of the leading minds in the field.

2,000 Enter Math Contest For University

Nearly 2,000 high school students from throughout the state entered the University of Idaho's second annual math contest this spring. The contest is open to all high school students and is designed to encourage interest in mathematics.

The contest was held during the spring semester and was open to both high school and college students. The winners were announced at a special ceremony held at the University of Idaho.

Republican Elects Martel

Harry Martel, a member of the Republican Party, has been elected to serve as the next president of the University of Idaho. Martel, who is currently a student at the University of Idaho, will take office in July.

Martel is a native of Idaho and has a strong background in the field of education. He has served as a teacher and administrator in the local school district and has been actively involved in community service.

The election was held on campus and was open to all students. The winner was announced at a special ceremony held at the University of Idaho.

MasonAch, Idaho's Newsmaker

MasonAch, a prominent sports announcer and commentator, has been named Idaho's newsmaker of the year. MasonAch is known for his work on various radio and television programs, including local news and sports segments.

MasonAch has been a fixture on the Idaho news scene for many years, and his contributions have been widely recognized. His dedication to his craft and his passion for the news have made him a favorite among Idahoans.

The awards were announced at a special ceremony held at the University of Idaho.

Newfoundlander YFFIE Arries For Idaho Stay

A Newfoundlander, YFFIE Arries, has been approved for a stay in Idaho. Arries is a graduate student in psychology at the University of Idaho and has been studying in the state for the past year.

Arries has been working on a project that explores the impact of cultural differences on communication. His research has been highly regarded and has received numerous awards.

The approval was announced at a special ceremony held at the University of Idaho.

John D. Bradley Memorial Scholarship Approved For Use By Mining Students

A memorial scholarship in honor of John D. Bradley, a former mining student, has been established at the University of Idaho. The scholarship will be awarded to mining students who demonstrate outstanding academic achievement.

The scholarship was established in memory of John D. Bradley, who was a mining student at the University of Idaho. He died in a mining accident in 1950.

The scholarship was approved by the University of Idaho and will be announced at a special ceremony held on campus.

MOSCHIO BEAUTY SALON

COME TO OUR CAFE FOR THE CAFE WINE Specials

$8.50 and up

Base, Minx or Dye

S & H Green Stamps Given

ESTERBROOK-picking up new users every day

Barb or Fiz-Jett has a great point in that we are not the only one available, but that is not the way! We should always try to do the right thing. I would like to think that the customers of Fiz-Jett have a better way to do this. The Esterbrook stew is nifty and it is a good way to do this too.

Women Will Occupy A Larger Role In American Science

By 1970, one out of three working women in the many fields concerning science—Physics, Chemistry, Biology, etc.—was named by one of the American Science Societies. This trend is not surprising and is supported by the fact that women are becoming more and more involved in research and development.

One of the most significant and important activities of the American Science Societies is the giving of awards and prizes to outstanding women scientists. In the past decade, there has been an increase in the number of awards given to women, especially in the fields of physics, chemistry, and biology.

The problem of bringing more women into the scientific community is a challenge, and the American Science Societies are working to address it. They are providing support and resources to encourage women to pursue careers in science.

Ed Television Granted

The Joint meeting of the National Association for Education in Television and the Educational Television Association, held in New York City, approved the proposal to establish Ed Television. This new channel would focus on educational programming for children and adults.

Two Coeds Are Awarded

Two coeds are being awarded for their outstanding achievements in television. They are being recognized for their contributions to the field of education.

Kiwani Club To Get Funds

The Kiwani Club, a local organization, is set to receive a grant from the Kiwanis International. The grant will be used to fund various projects and initiatives.

Kiwanis International is a global organization that focuses on service to the community. Kiwanis Clubs work to improve the lives of children and young people through community service initiatives.

Ed Television will be the first and only television station dedicated to educational programming. It is expected to be a significant step forward in providing high-quality educational content for all audiences.

The Kiwani Club is grateful for the support it receives and is committed to using the grant to make a positive impact in the community.
Vandals Split Two Road Tilts

The Vandals swung their bats against OIC pitching at the end of the regular season and battled the third-place club. The Vandals, 2-2 in Northern Division play, are tied for second with Idaho State and Wisconsin in the standings. The Vandals and Idaho State play Wednesday at 1 p.m., and Wisconsin and Idaho State meet at 4 p.m. The regular-season champions will compete for the conference's top berth in the annual MWC Tournament.

Fanning Uses Eggs, Football
To Gain His Life's Aim

Jim Fanning isn't concerned with how many eggs he used to sell the Vandals football players. He has taken certain measures to ensure that his football players will be able to find a way to win.

The Vandals are currently 2-2 in Northern Division play, but Fanning believes that his team has the potential to win the conference championship. He has already implemented a new practice routine that involves using eggs for weightlifting exercises.

Golfers Lose First Decision Then Garner Fourth Victory

In this year's match, the Vandals were defeated by the Stokes College golf team. However, they were able to take the final match and claim victory.

The match was held at the Stokes College golf course, and the Vandals were able to defeat their opponent with a score of 18-10. The match was a tough one, but the Vandals were able to pull through and claim the victory.

Tennis Team Loses Pair

The Vandals dropped two matches in a row, losing to Wisconsin and Wisconsin State. The team is now tied for second place in the Northern Division.

Rain Golfers grid Drills

The Vandals are preparing for their upcoming match against Idaho State. The team has been practicing extensively in order to improve their skills and tactics.

Lucky Strike: Graduation is all that matters

Lucky Strike (a variety of tobacco) is a popular product among college students. However, smoking is harmful to health and can lead to various health problems.

Did you know that smoking can cause lung cancer, heart disease, and other severe health issues? It is important to quit smoking or avoid starting altogether.

Do you know the reasons why Lucky Strike is so popular among college students? Let's explore some of the reasons:

1. Flavor: Lucky Strike is known for its unique flavor and aroma. Many students enjoy the taste and the way it makes them feel.

2. Accessibility: Lucky Strike is widely available in college campuses, making it convenient for students to purchase.

3. Social aspect: Smoking is often associated with certain social groups or circles. Students may smoke to fit in or be part of a group.

4. Nostalgia: For some students, Lucky Strike may bring back memories of their childhood or a special time in their life.

5. Stress relief: Smoking is sometimes used as a way to cope with stress or anxiety.

Regardless of the reasons, it is important to consider the health risks associated with smoking and to make informed choices about tobacco use.

Remember: Graduation is all that matters!
