VOTERS TO PICK LEADERS FOR ’53-’54 TOMORROW

Bunyan’s Boys Tell About Conservation

University Students Speak In Northern High Schools

Twenty-one University Students are speaking to- day and tomorrow in North Idaho high schools on the differ- ent phases of the university to the students of the area in connection with the University’s 1953-54 campaign. The students are being sponsored by the University Student Council.

Students will speak to the following high schools:

Tuesday, March 15:

11:05 a.m. Homer, Idaho.
11:30 a.m. Washougal, Wash.
1:00 p.m. Orofino, Idaho.
1:30 p.m. New Meadows, Idaho.
3:00 p.m. St. Maries, Idaho.
3:30 p.m. Grangeville.

Wednesday, March 16:

11:05 a.m. Weippe, Idaho.
11:30 a.m. Grangeville.
1:00 p.m. Kamiah, Idaho.
1:30 p.m. Nez Perce, Idaho.
3:00 p.m. St. Maries, Idaho.
3:30 p.m. Moscow, Idaho.

Questions should be directed to the Student Council office.

Association Of Forestry Clubs Meets

Keith Yeager

Little International Week Activities In Full Swing

The 27th annual Little International show began yesterday afternoon, and will continue through Friday, with the closing events held next Sunday. The Auxiliary, the women’s group of the L.I.A., will hold a tea party Sunday, March 19, for the benefit of the school. The Auxiliary is organized this year in cooperation with the Idaho Federation of State Girl’s Clubs.

During the week, a number of events will be held to entertain the students. Among these are: a tea party, a tea dance, a piano recital, a concert, and a play. The Auxiliary will also hold a bazaar and a garage sale.

The Auxiliary has been very successful in its efforts to raise funds for the school, and has done a great deal of work to make the L.I.A. a success.

Cow Milking Classes Begin

Sneak Training

Two figures stand tall in the right of the ring. Bernie, Notre Dame’s Livestock Judging team member, and Jerry, a fellow member of the team, are about to begin their contest. The picture was taken on the campus of the University of Notre Dame.

Cow Milking classes begin this week, and will continue through the end of the month. The classes are open to all students, and are free of charge. The purpose of the classes is to teach students how to milk cows.

The classes will be held every Tuesday and Thursday afternoon.

Knights Tap 52 Freshmen Wednesday

Interfraternity relations, with the theme of the spring学期, will be the topic of the 52 Freshmen banquet at 7 p.m. on Wednesday, March 16, in the University’s Masonic Temple. All freshmen, regardless of fraternity affiliation, are invited to attend.

The banquet will be held in the main dining room of the temple, and refreshments will be served.

The Knights of Columbus will conduct the program, and the evening will be hosted by the University’s Freshmen Council.

The Knights of Columbus will conduct the program, and the evening will be hosted by the University’s Freshmen Council.

Blue Key Clean-Up Date Set

The annual “Clean-Up Day” will be held on Saturday, April 1, beginning at 9 a.m. The event is sponsored by the college’s Blue Key Society, which is a national honorary society for students.

The day will begin with the cleaning of the college’s grounds, and will continue with the cleaning of the city’s parks and streets.

Events, Page 5

Executive Board Posts. ASUI Presidency At Stake

According to the various campaign managers, approximate- ly 10,000 students will vote for the candidates for the executive board. The candidates for the presidency of the university student council are currently tied at 4,800 each, with the presidency of the ASUI being at stake.

The candidates are: Mary Stone, the current president of the student council, and Paul Davis, the current vice-president of the council. The candidates will be elected by the students, and the results will be announced on Monday.

Mary Stone, the current president of the student council, has been in office for the past year, and has been a strong advocate for the rights of the students. Paul Davis, the current vice-president of the council, has been a member of the student council for the past two years, and has been involved in various campus issues.

The election will be held on Tuesday, March 19, and the results will be announced on Wednesday.

Tryouts Slated

Tryouts for the Tide’s basketball team will be held on March 17, and the team will be announced on Friday. The Tide’s basketball team is currently coached by Coach John Thompson, and is in good shape for the season.

The Tide’s basketball team is currently coached by Coach John Thompson, and is in good shape for the season. The team has been practicing hard, and is looking forward to the upcoming season.

Paul Davis, the current vice-president of the council, has been a member of the student council for the past two years, and has been involved in various campus issues.

The election will be held on Tuesday, March 19, and the results will be announced on Wednesday.
They'll Pine For You

We congratulate the Associated Foresters on the occasion of Forestry Week. The importance of this program is.echoed in the efforts of the forests of the world, which provide a source of timber for construction, furniture, and other products. By preserving these forests, we ensure a sustainable future for future generations.

A Government Is Elected

This year is special because we are selecting new government leaders. It is a responsibility to vote for candidates who align with our values and support our community. Your vote matters.

Challange To Latah County

The residents of Latah County are encouraged to participate in the community challenge. This is a great opportunity to come together and make a positive impact on our local environment.

Madrigal Singers To Give Concert

The Madrigal Singers will be performing a concert to celebrate the season. The performance will feature a variety of traditional and modern pieces. Don't miss out on this festive event.

Your Political Forum

We all have the right to express our opinions. Join the political forum to discuss and debate the issues that matter to you. It's your chance to be heard.

On a sunny day, a group of people is having a picnic in the park. The sky is bright blue, and the sun is shining. Some people are playing frisbee, while others are enjoying a book.

In the trees, two birds are perched, watching over the scene. A gentle breeze rustles the leaves, creating a soothing sound. The atmosphere is peaceful and serene, an ideal setting for a relaxing day outdoors.

Foresters Tell Plans, Methods, Results

The activities of the foresters for 1923-24 were inaugurated by a membership drive in the spring of the year. The officers of the Forest Service, led by Branch Directors who are well known in the profession, visited all the states in the country and made personal appearances before various forest associations and professional groups. The results of the drive will be announced later in the year.

Range Land Conservation is Important

The new course offered for foresters is the first of its kind in the nation. It is designed to meet the needs of foresters who are engaged in range land conservation. The course will cover the following topics:

1. Introduction to Range Land Conservation
2. The History of Range Land Conservation
3. The Biology of Range Land Conservation
4. The Economics of Range Land Conservation
5. The Practice of Range Land Conservation

The course will be taught by the University of Idaho, and the course materials will be used in the state for training foresters.

New Course Added For Foresters

It is now possible for students with a background in the study of fish and wildlife management at the University of Idaho to enroll in a new course in fish and wildlife management. The course will cover the following topics:

1. Introduction to Fish and Wildlife Management
2. The History of Fish and Wildlife Management
3. The Biology of Fish and Wildlife Management
4. The Economics of Fish and Wildlife Management
5. The Practice of Fish and Wildlife Management

The course will be taught by the University of Idaho, and the course materials will be used in the state for training foresters.

From the President's Office

It is a privilege for me to tell you that the faculty and students of the School of Forestry at the University of Idaho are proud to announce the establishment of a new department of forestry. This department will be headed by Dr. J. E. Burkhardt, who has been appointed as the first head of the department. Dr. Burkhardt brings to the University a wealth of experience in the field of forestry, and he is well qualified to lead the department in its development.

Word 'Waste' Eliminated By Modern Conservation

By E. Ellis

The concept of 'waste' is rapidly being eliminated by modern conservation methods. The idea of using all available materials to the fullest extent is becoming increasingly popular. The use of recycled materials is becoming more common, and the concept of sustainable development is gaining ground.

Tree Farm Is Planted By Students

Idaho's first community tree farm was planted in April 1923. The students of the University of Idaho planted the trees on a field near the campus. The tree farm is being managed by the students, and it is expected to provide a valuable resource for the future.

Tree Farms are Growing in Popularity

Tree farms are becoming increasingly popular as a way to conserve land and provide a source of income. The concept of using trees as a natural resource is gaining ground, and the idea of using trees as a source of income is becoming more common.

Wildlife Experiment Station Conducts Extensive Research On Idaho's Range Problems

By M. Wallace

The state legislature created the Forest Wildlife and Range Experiment station in 1938 and placed it in the Department of Agriculture, School of Forestry. The station is directed to conduct research on forest, wildlife, and range problems of the state and to cooperate with federal, private, and other state agencies in conducting an integrated program of research, extension, and publication.

Research Needs

The important research needs and the responsibilities of the station in these fields, are being met daily by the staff, through research, and by extension efforts. The principal programs of the station include the study of wildlife, range, and forest conditions in the state, and the development of practical methods of management for these resources.

The work of the station is conducted by the permanent staff of 60, working full time in research and by 20 research fellows and graduate students. The results were brought to the people of the state and the nation through 20 official publications, eight research monographs, many monthly and quarterly progress reports, several official papers appearing in professional journals, field days of schools, and in demonstrations. The station cooperated officially with eight other state agencies and state of Idaho agencies. The station also worked cooperatively with three colleges on the campus, and with many private individuals and corporations. Effective aid and cooperation was also obtained from the University of Idaho and two special advisory committees.

Work at a Pace

The work of the station is supported by the Idaho State Senate and the Idaho State Board of Education.

IDaho FORESTRY WEEK!

Join the University Forestry Students in Conserving and Protecting One of Idaho’s Most Precious Natural Resources!

The people of Idaho have the privilege of being able to hunt and fish a greater variety of wildlife than the residents of any other state, in the Union. Their prospects of filling their bag limit are also greater than in most states.

In many states there will be more hunting and fishing restrictions with the increase of population. There will also be less game in the hunting bag at the end of a sportsman’s day, but not so in Idaho. Prospects in our state are very good.

Why? Because Idaho still has a vast area of forested and primitive regions. Proper management which will produce a sustained yield of game for generations of the state is being carried out. With this proper care and protection Idaho’s forested areas will yield a productive for many generations to come.

**Individuals Shine At Oregon But Tracksters Lose Anyway**

**One Of Idaho’s Top Golfers**

Sweeney, Clark and Gourley Seize Marks; West Is Winner

Idaho track and field men won as many first places at the University of Oregon and broke five meet records in the last but still lost 54-47 Northern Division dual meet to the Beavers of Eugene Saturday afternoon.

Each school won seven events and split a three-way tie in the high jump, but the points were totaled.

Michigan Sweeney led 11 big throws, but even so the state's best distance thrower.

Brick Bowmamann's best had too much depth, espe-

ecially in the shot put.

Bruce Sweeney, Jr. led his team to a third place finish in the class 135-pound men, Emerson Kershner in the men's discus.

Fitch "Thunderbird" Cowden marked the second best 100-yard dash when he leaped 21 feet 9 1/2 inches in the broad jump and equal the 21 1/2-inch 230-pound best.

The speedy little man also won the 150-yard high-hurdle and had first in the 100-yard high-hurdle.

Bruce also totaled 6 points in the broad jump, discus, hammer and weight.

**Army Rifle Squad At Pullman**

Idaho's first ROTC rifle team has evidently been working hard for its first game in the season opener against the strong Washington State fire team at Pullman held on Saturday.

Frank Van Harryson has returned southeasterly aid to the coach from past years and has been taking his team to the point.

Hitting has been rather rough and somewhat gone for him, espe-

cially after more practice. Bob Hulshoff and Billy Bean have participated particularly in the meeting department.

Defensive play in the infield has been improved with Heath Taylor, Jack Gold, and Sarahs Bearman at third, center and left respectively.

**Cougars Overlook**

The Cougars, respectively have one of their strongest fields to date.

Lloyd, the new head coach and the 10-year-old old man, is expected to start for the WSU Pinch Tuesday.

**Arm of the Vandal's**

Two Washington State University 21-year-old men, won the national junior discus title last summer.

Lloyd, at 195 pounds, represented the University of Oregon in the 1954 NCAA tournament.

**Back This Year**

Washington State University 1953 with the three-year letter man.

Other new records were established by Washington State in the 100-yard dash of 11.2 seconds, in the mile run and the 300-yard dash.

**Horrin Pleased**

On Monday, Jan. 28th, Vandal coach Horin pleased the announcement of his charges in the conference.

Most of the squad members had been trained with the exception of the 21-year-old man.

Bobby Shipton is in the top position for Oregon State.

Bob Shrout is in the center, with Pete Shipton in the field.

Shipton was held by Horin pleased in the 215-pound division and to put in a good field in the 220-pound class.

Shipton's next match is in the 220-pound class against Washington State.

New Coach Is Signed By Vandyals

Doel White, former director of athletics and head football coach of the University of Oregon in 1954, has been named to the position of assistant coach of the Oregon State Beavers.

White announced this week, in an interview with the Register-Guard, that he would leave the University of Oregon to accept the position of head coach of the Oregon State Beavers.

He will take over the head coach's position for the Oregon State Beavers in the spring of 1955.

Don't you want to try a cigarette with a record like this?

1. THE QUALITY CONTRAST between Chesterfield and other leading cigarettes is a revealing story. Recent chemical analyses give an index of good quality for the country's six leading cigarette brands.

   The index of good quality table—a ratio of high sugar to low nicotine—shows Chesterfield quality highest

   15% higher than its nearest competitor and Chesterfield quality 31% higher than the average of the five other leading brands.

2. First to Give You Premium Quality in Regular and King-size . . . much milder with an extraordinarily good flavor—and for your pocketbook, Chesterfield is today's best cigarette buy.

3. A Report Never Before Made About a Cigarette. For a full year a medical specialist has been giving a group of Chesterfield smokers examinations every two months. He reports...
