A new potato variety with a white flesh grown by A. Speidel commercial field farm in Pocatello, Idaho, has been introduced last year by the Idaho Agricultural Experiment Station. The variety, named “Idaho White,” a cousin to the current Idaho russet potato, is marked by a longer growing season, a superior white flesh, and a higher yield. A. Speidel, a farmer in Pocatello, who has been involved in the potato industry for more than 20 years, is the lead researcher on the Idaho White project. The new variety is expected to be a significant addition to the Idaho potato industry, offering farmers a new option for growing and selling potatoes.
**VANDALS PREP FOR BYU MEETING IN BOISE**

Loss Of Kleffner May Hurt Vandals In 4th Tilt

A "big factor in the Boise scene is the loss of the [Vandals'] Brian Kleffner," said the Idaho Statesman. "Despite the loss of Brian, the Vandals will be tough to handle for BYU."

BYU has a strong running game and is expected to have a productive aerial attack. Kleffner, who was the Vandals' top tackler last season, was a key part of the defense that limited the Cougars to 264 yards on the ground in their game last year.

Vandals will be without Kleffner, who was injured in practice last week. The Idaho Statesman quoted a Vandals' assistant coach as saying, "We're expecting a tough game, but we believe we can win." The Vandals need to perform well against BYU to have a chance at a winning record this season.

**UCLA's Blocking, Running Lead Conference Foes**

Los Angeles, CA - UCLA's blocking and running are expected to lead their conference foes. They are a well-balanced team with a strong offensive line and a solid running attack.

The Bruins have a strong running game led by quarterback Gary Beban and fullback Joe Bryce. They also have a good offensive line led by tackle Jerry Laflamme and guard Tom Bier.

The Bruins' defense is also expected to be strong, with a solid secondary led by safety Bob Pasternack and cornerbacks Mike Sheets and Mike Fyfe.
