Students — Outmoded?

Steve New World, how come we can't think for ourselves? We have to use such material, as are sold in the new Sigma Chi fraternity catalog? And is it at all possible that we can't exercise some independent thought in our actions? Isn't there a difference between our freedom and the freedom of those who are not students?

Dr. James J. Murphy, president of Michigan State University, recently stated that "the students are the ones who have to learn to think for themselves."

It is certainly true that we are the ones who have to think for ourselves. But is it also true that we are the ones who have to think for ourselves? Is it not possible that we can think for ourselves, even if we do not have the freedom to think for ourselves?

There is a difference between our freedom and the freedom of those who are not students. And it is this difference that makes it possible for us to think for ourselves.

The idea that we are the ones who have to think for ourselves is a dangerous one. It is a dangerous one because it is false. It is false because it is not true.

The idea that we are the ones who have to think for ourselves is a dangerous one because it is not true. It is not true because it is a lie. And it is a lie because it is a lie.

The idea that we are the ones who have to think for ourselves is a dangerous one because it is a lie. It is a lie because it is a lie. And it is a lie because it is a lie.

The idea that we are the ones who have to think for ourselves is a dangerous one because it is a lie. It is a lie because it is a lie. And it is a lie because it is a lie.
