Fuddyduddy Dean Ends Water Fight

A good-hearted right-wing student, Dean Fuddyduddy, who has been persistently and successfully resisted by the University Administration for over two years, finally yielded. The Dean, who had been watered with a garden hose for over two hours, was finally forced to admit defeat by the relentless pressure of the student body.

Executive Board Appropriate For "Hot Wire"

The ASUI Executive Board adopted the funds last night for the installation of a "hot wire" between the student union dorms because it can be settled immediately. However, the Board members were unable to decide on the location of the hot wire.

Fuddyduddy Dean Ends Water Fight

The Associated Students of University of Idaho (ASUI) has reached an agreement with the administration to end the water fight that has been ongoing for over two weeks. The Water Department has provided a hose that will be used to settle the dispute.

Party Leaders Release Methods

The Blue and Gold Party and the Student Body President announced the official methods for the upcoming election. The Blue and Gold Party released their methods for the primary election, while the Student Body President released the methods for the final vote.

Pingree High To Be Latest State College

The Blue Legislature has been dominated by Idaho State College from the beginning of the year. The legislature has been pushed to the background by the larger and more powerful universities.

No More Says IFC

The Interfraternity Council (IFC) has announced its support for the university's new policy on alcohol. The council has been working on the issue for several months and has met with university officials to discuss the matter.

Idaho Pros Comments On State Tax Structure

University of Idaho economists warn new sales taxes could cause the state's economy to contract.

When asked if she thought Idaho's economic problems were related to the state's tax structure, Glenda A. Moore, assistant professor of economics, said;

"There is little evidence that this is the primary cause of the state's economic problems. However, there is some evidence to suggest that a tax structure that is more complex and difficult to administer may be contributing to the problem.

"In particular, the state's reliance on sales taxes may be causing problems because this type of tax is generally considered to be regressive, meaning that it places a larger burden on lower-income households. In addition, the state's high sales tax rates may be discouraging consumer spending and investment.

"It is important for the state to consider reforms to its tax structure that would promote economic growth and increase the state's competitiveness in the global marketplace.

"I would encourage the state to consider implementing a tax system that is more progressive, such as a combination of income and sales taxes, in order to reduce the burden on lower-income households and encourage greater economic activity."

Stock Research Session 2 May 2

Investors are concerned with the potential impact of new sales taxes on the state's economy. The state has recently been ranked among the highest in the country for tax burden.

"The state's high sales tax rates are a major concern for investors," said David W. Jones, an assistant professor of economics. "The high sales tax rates may discourage consumer spending and investment, ultimately leading to a slowdown in economic growth.

"In addition, the state's high sales tax rates may make the state less competitive compared to other states with lower sales tax rates. This could lead to a loss of business and investment in the state, further slowing economic growth.

"It is important for the state to consider reforms to its tax structure that would reduce the burden on consumers and businesses and promote greater economic activity."
Vandals Battle Pirates Here; Garner 3rd In Banana Belt

The Idaho Vandals, third place finisher in the Banana Belt, will hold a big advantage against the Miami Hurricanes when they play at Miami on Saturday. Dr. John T. Garner has announced that the Vandals will hold a big advantage against the Hurricanes when they play at Miami on Saturday.

Greek Decision Detrimental

UNIVERSITY OF IOWA, MORGAN, IDAHO

The Inter-Fraternity Council and Pan-Phi Delta took a decision during the week that will be the deciding factor of their survival. The Pan-Phi Delta was struggling to make ends meet with the start of finals and is trying to stop publication of living groups average offerings and all profits going to Pan-Phi Delta.

The Greek is only as strong as its weakest links, and if these three units are aligned with the Pan-Phi Delta, the Greek will remain even stronger. The Greek, however, is in dire need of the Pan-Phi Delta and the Pan-Phi Delta is in dire need of the Greek. Without these two, the Pan-Phi Delta will certainly crumble. Without the Pan-Phi Delta, the Greek will remain in a state of turmoil, unable to achieve its full potential.

There is no way that these two units can work together on a project such as this. The Pan-Phi Delta has already shown that it will not commit to any project without the Greek, and the Greek has already shown that it will not commit to any project without the Pan-Phi Delta. This is a situation that cannot be resolved.

The Pan-Phi Delta has been charged with the responsibility of providing financial support to the Greek, and it is clear that this support is not forthcoming. The Greek has also been charged with the responsibility of providing financial support to the Pan-Phi Delta, and it is clear that this support is not forthcoming.

This is a situation that cannot be resolved, and the Pan-Phi Delta and the Greek will remain in a state of turmoil, unable to achieve their full potential. Without these two, the Greek will remain in a state of turmoil, unable to achieve its full potential.

The Greek is only as strong as its weakest links, and if these three units are aligned with the Pan-Phi Delta, the Greek will remain even stronger. Wet Roads Forecast for Vacation Seekers

Idaho Argonaut

Holiday Starts Friday 5 p.m.

The southwest predicts wet roads and below-normal temperatures, which may disrupt some vacation plans this week-end. The long-week holiday officially starts Friday at 5 p.m., but the integration of over 60 million people into cars, trucks, and buses has already begun. A forecast has suggested a 90 percent likelihood of thunderstorms and scattered showers for the week, with temperatures remaining below freezing at night.

Ag Deps. Consolidate

Says Prexy

Four of the College of Agriculture departments are consolidating into one, in preparation for the Spring semester. The move, according to President D. Thulstrup, is part of a plan to integrate the departments and make them more efficient. The new department will focus on agriculture and forestry, with an emphasis on research and education.
