Next year, let's schedule Homecoming on the weekend before mid-term exams. Not only were students building destinations and workshops for the exam, but the entire weekend was less hectic which could have been used in review, looking for, or examining, as the case may be.

Parade vs. Floats
The decorations were off fairly well—at least they were less expensive than building floats. The floats, by some polls, failed, and turned out like garbage. Only a few people could walk and float. However, looking at the events that we need to be aware of, it was only a piece of the wood that lasted as long as it did. We need to consider Homecoming and our varied fair interests and as part of our Homecoming weekend, but if Homecoming is necessarily limited to one day, a parade simply isn't very feasible.

The presidency of a parade isn't given up completely on the day, and it is observed that as possible we could hold the parade other years, and make our homecoming time even more enjoyable in the years to come and do away with some unnecessary frivolity in the college campus. We can imagine the homecoming throughout the years and still maintain the sense of spirit characteristic of our campus.

Dedication Held
The new University Classroom Center was formally dedicated on Saturday afternoon in a simple but effective ceremony attended by the student body and faculty. Among those participating was President Dr. R. B. Derr, chairman of the Board, and Mrs. Derr, who were in attendance. Dr. R. B. Derr, chairman of the Board, and Mrs. Derr, who were in attendance.

Bread and Water
Following the UDC dedication of the Board of Regents held in the University Classroom Center, a special dinner was served to guests. The dinner consisted of baked potatoes, green beans, and rolls. In addition, visitors were treated to turkey sandwiches and ice cream. The festivities were enjoyed by all.

HERES MORE ABOUT
Plane Crash
Mr. received his master's degree in aeronautical engineering. Mr. was a member of the Phi Beta Kappa and Phi Delta Theta Fraternities, and a member of the University of Wisconson's graduate society. He was a member of the St. Mary's Church, and served as a first lieutenant in the Army Air Corps. Before coming to the University of Idaho he had been employed as an engineer in the office of Mr. Hall and Egbert, Inc., and a drafter at the Seattle, E., and M., and a drafter at the Seattle, E., and M.

Senior and graduate students in Engineering and Science and Business will want to talk over new opportunities at FHC Corporation, 14842055, College of Business and Administration. For more information, contact the college.
