Just For You, Mom

What does the word "mother" mean to you?

While we were small, her name was Mother. As we grew up, her name was Mom. As we got even older her name was Mommy. And then, just before we left the nest, her name was Mother. She has been all of these names for nearly 50 years, and she is still "Mother" in our hearts and minds.

We all need her, she is the best mother a girl or a boy could ever hope to have. We all love her, she is the best mother anyone could ever hope to love. We all admire her, she is the best mother any man or woman could ever hope to admire.

But as we grow up, we forget what a wonderful mother she is. We forget what a wonderful person she is. We forget what a wonderful woman she is. We forget what a wonderful person she is. We forget what a wonderful woman she is.

But we should never forget. We should never forget what a wonderful mother she is. We should never forget what a wonderful person she is. We should never forget what a wonderful woman she is. We should never forget what a wonderful person she is. We should never forget what a wonderful woman she is.

So the next time you see your mother, give her a hug and tell her how much you love her. Tell her how much you admire her. Tell her how much you respect her. Tell her how much you love her. Tell her how much you admire her. Tell her how much you respect her.

And remember, the best way to show your love is by doing something nice for her. It could be as simple as making her a cup of tea, or as complicated as planning a surprise party. But whatever you do, make sure it comes from the heart.

Because your mother is the best mother a girl or a boy could ever hope to have. And she deserves the best from you.

A Glance At Religion

What is religion? A workable definition is "a relationship between man and that which he calls God." This, however, does not necessarily mean that he has to do with the Christian faith.

The above definition implies, the term religion does not convey the same significance or meaning with each of its separate parts. Thus the study of man's religious concepts and practices is a complex task. As we go on to study the concept of God, we shall be interested in ways of knowing God, his attributes, the nature of his being, and the relationship of man to God. These topics will be dealt with in detail in the course of study called Philosophy of Religion.

We asked questions and wrote several articles about the things that were related to us. We thought you might enjoy them, too.

"What do you believe?" is one of the questions we asked. "What do you believe is true about God?" is another. "What do you believe man is?" is a third. "What do you believe is the purpose of life?" is a fourth.

The answers to these questions are found in the course of study called Philosophy of Religion.
