Students Reverse Habits; Move Off-Campus Increases

As the number of married students at Idaho increases, they will find it harder to get university housing. Its glass slab for expending the University's availability.

According to President Stout, the University has few large apartments in which to accommodate the increasing number of married student housing problems.

The student demand for housing for all undergraduate students was high prior to the housing of the student population nearly every student in the University's housing facilities is claimed.

The remaining 11 students operate the University's housing facilities, a number of the student population that is claimed.

According to Stout, there are no plans to expand any of the student housing. "The problem will be solved as more students move off campus," he said.

Stout also noted that the all-women halls were being eliminated.

"We have a problem with the housing for the women," he said.

The University operates 115 units for married students. These include 40 one-bedroom apartments in Park Village, 54 prefabbricated buildings, and 17 houses on the perimeter of the campus.
