Political scientist Grimes will serve violence council

University of Idaho Political Scientist C. E. Grimes has been appointed to serve on the Commission on Causes and Prevention of Violence, it was learned here.

Grimes, who is currently writing a research paper on the Idaho political scene, will serve as consultant to the commission. Grimes, a historian, opposes "any kind of violence in every aspect of government." He will advise the commission on its goals and objectives.

Grimes will serve on the commission in conjunction with the Idaho State University's campus security department.

The commission's goal is to study the causes of violence and to develop policies to prevent it.

Miller helps students 'get out of school through job placement'

"The American Office helps anyone, we help them do our best," said Bill Miller, assistant director of the American Office. Miller stated that the office helps students by providing information on job opportunities and employment services.

Located in the Idaho Education Building, the office helps students in finding jobs and providing information on job opportunities. The office helps students by providing information on job opportunities and employment services.

The office is open from 8 a.m. to 5 p.m., Monday through Friday. The office is located in the Idaho Education Building.

SCE outlines five point plan

By Gay Fisher

"The Students Council is on its feet," said John Gaither, student body president. "We have a five-point plan to start this semester."

The plan includes the following:

1. A new constitution for student government
2. Increased student representation
3. A new committee for student governance
4. A new committee for student representation
5. A new committee for student representation

The plan was presented to the Student Council by John Gaither and it was adopted unanimously.

"We are excited about this new plan," said John Gaither. "We believe it will help us to improve our organization and become more effective in representing the students' interests."
First community concert will feature Don Shirley

The Don Shirley Trio will present a program on October 2 as the first presenta-
tion of this year's Community Concert series.

Don Shirley belongs to an elite order of contemporary musicians, whose lives also have earned admiration as perform-
ers of classical music and arts. At the same time, he is a valuable musical force for the community of Madison and its surround-
ings. His latest offering of a fresh and classic concert will be held at the University of Wisconsin-Madison's Sellery Hall, 4408 University Ave., Madison, WI.

On this date, the trio will perform music ranging from the classics to contemporary compositions. The program will highlight the trio's unique blend of jazz and classical influences, creating a captivating and engaging performance for all audiences.

DATE AND TIME: Saturday, September 28, 2023, at 8 p.m.

PLACE: Sellery Hall, 4408 University Ave., Madison, WI

TICKET INFORMATION: Tickets are available online at the University of Wisconsin-Madison's Sellery Hall website or by calling the box office at 608-262-2273. General admission tickets are $20 for adults and $10 for students.

A COMMUNITY CONCERT...—The Don Shirley Trio will perform at Memorial Gym on October 2 at 8 p.m. Admission is restricted to university students and community members who are interested in experiencing jazz, blues, and classical music.

**Soviet scientist arrives on Idaho campus**

Dr. Olga Vladimirovna Serebryakova, Soviet nuclear research associate in Kremlin planning, arrived at the University of Idaho in Moscow to consult with Dr. Forrest F. Blackmon, professor of physics. It will be the on the campus until March.

Dr. Serebryakova is in the United States to study, research and develop special properties of new nuclear materials with the ultimate goal of producing new types of nuclear systems.

It will visit 14 other institutions in the US during his stay, including the University of Idaho. The Soviet Union is the fourth highest in the world and has fifteen institutions of higher education.

**Literary staff sees material**

Creative writers, here's your chance to gain the attention of the staff of the Liberty "F" magazine that publishes the works of the college. Published and circulated by the University students, the Liberty "F" draws writers from the entire campus and published and distributed on and off campus.

**Poultry heads meet**

Western poultry industry leaders will meet at a national poultry conference in Idaho Falls next week, a theme which causes concern for the students and farmers in the industry.

This meeting comes from the National Poultry Advisory Committee to the Pacific Dairy and Poultry Association. Six members of the committee are concerned with the health of the industry.

The committee also plans to meet with the University of Idaho poultry science department and report on their findings to the National Poultry Advisory Committee.

The meeting will be held next week in the University of Idaho poultry science department and will be attended by the students and farmers in the industry.

**Enrollment rises at testing station**

Enrollment in the University of Idaho courses is now at a record 52,000, the university said. The students are undergoing a record 27,000 tests.

**Hydrogeology develops theory**

A new theory explaining the origin of fresh water in the United States has been developed by the University of Idaho hydrogeologist, Dr. E. Williams.

The theory, published by the Idaho Bureau of Mines and Geology, shows that the origin of fresh water is explained by the interaction of groundwater and surface water.

**Building to be dedicated on campus this Saturday**

A new building for the first Institute of Medicine established by the University of Idaho will be dedicated on the University of Idaho campus, September 26 at 4 p.m. The new Institute, including a 300-seat auditorium, will serve as an educational facility for the University and the state.

The Institute is located on the west side of campus, west of the Administration Building. The new building has been named for the late Dr. Edward C. Shower, former president of the University.

The dedication program will include a special address by Dr. Eugene A. Steiner, President of Washington State University, to the University of Idaho faculty and students.

The new Institute of Medicine will be used for the university's continuing education program, which is designed to provide training and development opportunities for physicians and other health care professionals.

**Annual caped coeds will be held Saturday**

By Penny Franks

Why should V of I kids participate in Cap Fad? The new Cap Fad is a 5th down football that is held every Saturday at 7:00 p.m. for all V of I kids. The Institute will be held the University of Idaho in the Stobbe area of the stadium. The event will begin with the Cap Fad being held on the field and the Easter in the Field. The program will include short presentations by Alpha Lambda Delta, Sigma Chi, Delta Chi, Phi Beta Psi and Sigma Lambda Gamma who will sing their favorite songs and activities. Following will be the Cap Fad, which will be served. Later in the evening, the Tailgate will be open on the Stobbe field for everyone to enjoy.

The event and the drones for the Cap Fad will not be canceled. The women's 2.0 department has allowed the students to assist in organizing and handing out the drinks.

**Regents accept gifts and awards**

A gift of $50,000 from the former president of Boise to purchase a computer for the College of Business Administration of the University of Idaho was formally accepted by the Board of Regents meeting in Boise.

Dr. Ernest W. Harmon, president of the University, accepted the gift from Dr. John H. Brinsmead, who was a member of the Board of Trustees. The gift will be used to purchase a computer for the College of Business Administration.

**Chemistry professor nominated as candidate**

Dr. Joseph H. Green, professor of chemistry at the University of Idaho, has been nominated as a candidate for the position of president of the American Chemical Society. The nomination was made at the annual meeting of the ACS in Atlantic City.

Dr. Green's candidacy is in a research area that is becoming increasingly important: how to make high-quality lubricants for the future. Since the development of the lubricant, Dr. Green's research has been aimed at finding new methods to make lubricants that are more efficient and effective. This year, the American Chemical Society has granted Dr. Green their highest award, the ACS Award in Chemical Research on the Physical Sciences.

Dr. Green's research has been recognized by his colleagues, and he has been invited to speak at conferences around the world on the topic of lubricant research.

Dr. Green is a native of Idaho and has been a member of the University of Idaho faculty since 1975. He received his Ph.D. in Chemistry from the University of California at Berkeley in 1979. He has been a member of the American Chemical Society since 1972.

Dr. Green is currently serving as President-elect of the ACS and will become President in 2019.
TKE sweetheart ball to be held Saturday

The sum of The Kaye Siggla ball will be held Saturday evening, 9:30 p.m., in the Stairway to the Ballroom. The TKE Ball Committee has arranged for a ballroom of its own, where the guests will enjoy a variety of refreshments.

The ballroom is decorated with a set of flowers, and the guests will be entertained by the band, "The New York Beat." In addition, Miss Baker will present a program of entertainment and dancing.

The ballroom is divided into three sections, each with its own theme. The first section will feature Eastern dances, the second section will feature Western dances, and the third section will feature Southern dances.

The ballroom will be open from 8:30 p.m. to 11:30 p.m., and the guests are encouraged to arrive early to enjoy the atmosphere.

Industrial arts open education building

By Jane Anderson

The Industrial Arts Education Department has announced that a new open education building will be dedicated on the campus this spring. The building, which will be dedicated on the campus this spring, will be dedicated on the campus this spring.

The building will be a two-story structure, with a total of 20,000 square feet of floor space. It will include a large lecture hall, a computer lab, a workshop, and a library.

The building will be used primarily for industrial arts classes, but it will also be available for use by other departments, such as the Business Department and the Science Department.

The dedication ceremony will take place on Saturday, May 1, at 2 p.m. All members of the campus community are invited to attend.

Schedule is set for Homecoming

The university will celebrate Homecoming this year with a variety of events, including a parade, a dance, and a football game. The events will take place on the weekend of October 15-17.

The Homecoming parade will be held on Friday, October 16, at noon. The parade route will begin at the football field and end at the Fine Arts Center. The parade will feature floats, bands, and other student organizations.

The Homecoming dance will be held on Saturday, October 17, at 8 p.m. The dance will be held in the Student Union Ballroom, and it will feature music provided by a professional DJ. Guest tickets are available for $5 at the Student Union Box Office.

The Homecoming football game will be held on Saturday, October 17, at 2 p.m. The game will be played against the University of Southern California, and it will be held at the university's football stadium.
Car club & cars rally Sunday A rally for car clubs, an automobile, and a car in the parking lot will be at 2:00 p.m. on Sunday, September 27, in the parking lot. The rally will feature various car clubs in Idaho, with winners to be announced.

The event will be held in the parking lot, and Rick Theriault, club president, suggested that car enthusiasts visit the area to participate in the festivities.

"The aim of the event is to bring together car enthusiasts and celebrate the passion for automobiles," said Theriault. "The winners will be announced at the event, and there will be various prizes for the best displays and designs."
Frazier is pleased with registration

"It was somewhat concerned about the process of getting students registered, since the University of Idaho registry — especially with a student load of more than 25,000 — but, after several experiences, it is slowly growing on me," he related today.

In his new role, Frazier, who served as assistant registrar for six years, provided an excellent orientation of the entire University. Responsibilities include enforcement of rules, records for all graduates, compiling of grade transcripts and grade reports, and preparation of registration lists. Frazier has been involved in personnel and membership of the Idaho Education Service as director.

The University's Housak Latch is being held for the first time this year. Frazier hopes to increase the number of students attending the University who will participate in this event.

The Student Union Council is being held for the first time this year. Frazier hopes to increase the number of students attending the University who will participate in this event.

Obtaining sufficient funds, job of development departm

by Rosina Valler

The United States Department of the Treasury has been concerned with obtaining sufficient funds to finance its operations. This goal has been achieved, in part, by raising funds through taxation. While income tax is necessary to provide a general fund for the operations of the government, it is not sufficient to meet all the financial needs of the government. Therefore, the government has relied on other sources of revenue to meet its obligations.

The government has relied on various sources of revenue to meet its obligations. Among these sources are income tax, corporate income tax, and excise tax. The government has also relied on foreign aid and military assistance to finance its operations.

Achman Clayton Powell

Achman Clayton Powell was elected to the Board of Directors of the United States Department of the Treasury. Powell, a retired member of the University of Idaho faculty, received his M.A. in economics from the University of Chicago in 1945.

On October 1, 1945, Powell was named chairman of the Board of Directors of the United States Department of the Treasury. Powell was a prominent figure in the field of economics, and his appointment was widely anticipated. The appointment was widely praised and was seen as a major step forward in the direction of the government's economic policies.

The government has relied on various sources of revenue to meet its obligations. Among these sources are income tax, corporate income tax, and excise tax. The government has also relied on foreign aid and military assistance to finance its operations.

Girls are tapped for little Sigmus

The women of Sigma Chi tapped eight girls last night at Sigma Chi to fill the little Sigma organization. This is the second time this year that Sigma Chi has tapped girls. The women are: Sally Shute, Nancy Bakes, Mary Establishment, Norma Stein, and Joanne Cleary. These girls were selected on the basis of their academic standing.
