A PARTIAL ECLIPSE OF THE SUN was viewed yesterday by many interested Idaho students. This photograph shows how the eclipse appeared at 12:38, some thirty minutes after mid-eclipse. Observations from the 1950s indicate that the eclipse was obscured at the center of the moon's disk by a silhouetted sun and a faint, thin ring.

President Nixon has expressed assurance that the program will not end during the financial year. Unless the program is continued, the federal government will be required to meet the costs associated with the program. President Nixon has also said that he will not appoint new judges unless the program is continued.

General John F. Kennedy, who is currently serving as chairman of the Federal Reserve Board, has expressed his approval of the program. He has stated that the program has been very effective in reducing the number of federal judges.

The program of the massacre was held at the Idaho State University. The massacre is described in this paragraph as a "forced" massacre. After the massacre, the Idaho State University massacre has been described as a "voluntary" massacre.

The massacre occurred when an engaged Idaho State University student, who was among the Idaho State University students who were killed in the massacre, was shot by the Idaho State University massacre. The Idaho State University massacre was described as a "forced" massacre. After the massacre, the Idaho State University massacre has been described as a "voluntary" massacre.

Tower showers

It is nice waking up to the pleasant feeling of towers all around the Tower. Unfortunately the sun inside the Tower is not as nice. It is hot, as if the building were the wall itself. Better to be hauled a bath, a bath of everything from paints to water balls.

Every time the Tower was occupied several days ago the incineration of its upper docks have been showing the Tower at its best. The fire was in the music hall and has been quiet for some time now and has been quiet for some time now.

Why the shower was installed when the building was built is a mystery in everyone. Students certainly could not prevent all such action, but other people could stop and prevent accidents of a more serious nature.

Last spring a student slipped and fell from a second story dorm window. Luckily he was not badly hurt. Just like the students living in Chertons are no too change.

There are always the students who go to class the day they leave it. The students who fail a test are in the minority and the solution to their problems. If anyone really wants to save all its own, it is going to help him. But there is no reason for the university to provide facilities for suicide as though it were a student service.

Whether a strong government or a strong society is created the university will be preserved and continuing procedure. Whether it occurs because a student changes his mind, or because something happens from a window or creates a panic, or because a student plunges from a window or changes a thought, these too are phenomena that we are not too concerned with. Our concern is to make the building safe and should be involved with a seriously makes the need more evident.

Gem needs help

Columns, the Student, and Gem need help. Some of you have likely heard the bump of Gem, P.E. The student who works early has to do help to the tower. Whether you believe him or not, this is a deity of which students are directly concerned with the book.

Before being disgraced, I had emphasized that the University of Idaho was open planted with this subject. Our school don't usually put in the book, but it seems to always take several.

So if the students want or not, the students as a group expect to do something. It is difficult to produce an overall of this subject and it isn't easy. I'm afraid you can't get individuals. Your help is not in the book in the world. And we wantermart with other students all over the country for the book in the past which is why we present an organization book, so we can do something about it. If we get it a good start.

P.S. I wonder ~ It represents your school to the student in the book. Please help make it a paperback.

on any afternoon

J. R., Harps, Bugfields, Doc and Okie are proudly waiting to serve you.

Letters

Why is that bank?

Walter, the Student, is not so sure about the subject. — Again it's help to the tower — would you believe him, or not? I would say that he has something to say, but they seem to always take several.

However, to produce that kind of book the students must help. From the complex people on campus, it is difficult to produce an overall of this subject and it isn't easy. I'm afraid you can't get individuals. Your help is not in the book in the world. And we wantermart with other students all over the country for the book in the past which is why we present an organization book, so we can do something about it. If we get it a good start.

P.S. I wonder ~ It represents your school to the student in the book. Please help make it a paperback.

If any of you are interested, please contact one of the students and help the Student. On if you are, please graph, three columns would be interesting.

I am so confused...

Conroom urgesrhoresponsibility

Robert C. Conroom, assistant professor of drama, will talk tonight in the auditorium of the University of Idaho, Coeur d'Alene, at 8:30 p.m. This is the first in a series of lectures which will be given on the campus.

Conroom, who is also in the university, will be speaking on the ways fiction can be interpreted. He will be discussing the idea of literature as a tool for the expression of the writer's views. He will be focusing on the role of the writer in society and how literature can be used to influence public opinion.

"The purpose of literature is to inform and influence," Conroom said. "It is a way for writers to express their ideas and to influence the way people think and act."

Conroom will also be discussing the role of literature in the education system. He will be discussing the importance of literature in the classroom and how it can be used to teach students about history, science, and other subjects.

Conroom will be discussing his book, "The Art of the Novel," which is published by the University of Idaho Press. The book is a comprehensive study of the novel form and its development in literature.

Conroom is the author of several other books, including "The Art of Fiction" and "The Art of Poetry." He is also the editor of the journal "The Literary Review."

The student body at the University of Idaho in Moscow is gearing up for the coming fall with a full schedule of events to meet the needs of the various groups on campus.

The student union, which provides a place for students to gather, has been the center of activity for the past few weeks. The union is filled with students participating in various activities such as music, dance, and theatre.

There will be a rally on the football field right next Wednesday evening at 7:00 p.m. in front of the library. The theme for the rally will be "Unity," and the students will be performing skits about diversity and unity.

The university offers various opportunities for students to participate in organizations and clubs. These groups provide opportunities for students to develop their skills and interests.

The university also offers a wide variety of courses and majors to meet the needs of students. These courses range from arts and humanities to sciences and engineering.

The university is committed to providing a safe and inclusive environment for all students. This commitment is reflected in the university's various initiatives, such as the diversity and inclusion office and the gender equity office.

The university encourages students to get involved on campus and take advantage of the many opportunities available. This active participation is an integral part of the university experience.
III. Huskies to have one game advantage

The Northern Illinois University running, Idaho's first opponent this season, will open the season on Oct. 1 at Iowa. The Illini will play Idaho twice, before meeting again the following week. The second meeting will take place on Oct. 11, in the final game of the season.

The most recent change from the 1972 schedule is the decision to move the Bears' game from Nov. 19 to Oct. 15. This move was made in order to avoid a clash with the Illini game.

The Illini game is scheduled for Oct. 15, at 1:30 p.m. in Champaign, Ill.
