Knecht: "stay in Big Sky, Play Boise State in '71"

By Brian LeBled

Idaho Athletic Director Ed Knecht told ADU! Executive Board and approximately 30 members Tuesday night that, after carefully considering the next two football opponents, he felt the Vandals should make a joint appearance with Boise State College for a University of Idaho

contract from 1971 to 1981.

Knecht outlined that during the next few years the plan is scheduled for five at home and half, explaining the views of the Athletic Department and answering questions concerning Idaho football, the Big Sky Conference and the funding of athletics.

According to Knecht, the request of the Executive Board to consider a four-point proposal presented two weeks ago, Knecht pointed out that he had two goals for the 1971 season

Knecht pointed out that this concept will be brought to the administration of the University of Idaho in the near future, but the question of how much the Boise State game will cost the University of Idaho was not addressed.

Knecht stated that the Board he did not allow paid admissions or any other forms of compensation. In the case of football, the Board would have to be informed by the university Department of Athletics.

Dr. Orwick, associate professor of Business Administration, who was present at the meeting, gave the Board the following suggestions:

Dr. Orwick said that the Boise State game would be the third game of the season, and that the University of Idaho would have to bear the cost of the game.

Suggested an idea for Boise State to conduct a game with the University of Idaho, Knecht said the Boise State game will be the third game of the season, and that the University of Idaho would have to bear the cost of the game.

Knecht also said that Boise State and the University of Idaho would have to bear the cost of the game.

Knecht said that the Boise State game would be the third game of the season, and that the University of Idaho would have to bear the cost of the game.

Knecht also said that Boise State and the University of Idaho would have to bear the cost of the game.

The Idaho Argonaut

The death of the Student Bill of Rights

We took President Oderfeld at his word when he told us in the Spring of 1969, that our student government had "received another step in the realization of a number of the student bill of rights which are significant for the student body." When we read the Spring 1969 edition of the Idaho Argonaut we were elated, for it contained the student bill of rights which were being acknowledged. Now, in the Spring of 1986, we are elated to see that the Student Bill of Rights is alive and well.

The Student Bill of Rights was formulated by the Idaho Student Government in 1969, and it was the first document of its kind to be adopted by a student government in the United States. The Bill of Rights was intended to be a statement of the rights and responsibilities of students, and it was designed to provide a framework for the development of a more democratic and participatory student government.

The Student Bill of Rights included a number of provisions, such as the right to free speech, the right to access to information, the right to a fair and impartial disciplinary process, and the right to participate in the governance of the university. These provisions were intended to protect the rights of students and to promote a more open and transparent student government.

In the years following the adoption of the Student Bill of Rights, the university community has made significant progress in implementing these provisions. The university has made a commitment to providing a safe and inclusive environment for all students, and it has taken steps to ensure that students have access to information and to participate in the governance of the university. The university has also taken steps to ensure that students are protected from discrimination and harassment.

The Student Bill of Rights is a living document, and it continues to be an important tool for promoting the rights of students. As we look to the future, we hope that the university will continue to implement the provisions of the Student Bill of Rights and to ensure that students have the opportunity to participate in the governance of the university.

The Student Bill of Rights is a reminder of the importance of protecting the rights of students, and it is a testament to the commitment of the university community to creating a more democratic and participatory student government.

If you are interested in learning more about the Student Bill of Rights or in getting involved in the promotion of the rights of students, please contact the Department of Student Affairs or the Idaho Student Government.

From Middle America

Students warned of danger

Frank Bogardus

With great community interest and often fear, the American voting public is faced with the dilemma of whether to incorporate an election into the public school system.

By no means a new topic, the problem was recently the subject of concern at the Library Conference.

"If we want to live in peace, if we want to have the schools, the basic institution in this country, if we want to have a community that functions properly, we must have schools," said Lee Smith. "The problem of the voting public is the problem of the schools."

The question of who should vote in the schools has been under debate for many years. Some say it should be everyone over the age of 18, while others argue that only parents should have a say in the schools.

"We must be careful to incorporate the election into the schools," said Smith. "We must be careful to make sure that the election is not used as a tool to further our own interests."

For more on this topic, see the upcoming articles in the school newspaper.

For it's what it's worth

George thanked

Editor's argument: "I'd say to the newspapers, "You can't imagine what a great support our little "George" has been to the University of Idaho campus."

The case of the student newspaper is a classic example of how the news media can act as a powerful force in shaping public opinion.

"We must always remember," said George, "that the student newspaper is not just a publication, but a tool for the people."

Editor's response: "But isn't that the problem? We want to give the people what they want, not what we think they need."

George thanked: "We must always remember," said George, "that the student newspaper is not just a publication, but a tool for the people."

Play portrays Russia, feudal era

By Cathy Clemens

Picturing the end of the Russian feudalist period is Cherry Orchard, the best-known play of Chekhov, the Russian playwright. In the play, which centers around two traditional characters who are united by human emotions, will be presented by the ASUJ Drama department at 8 p.m., March 11 and 12 in the University auditorium.

Madame Ranevskaya, played by Elizabeth Wallin, is a high born Russian princess, a woman who has it all and believes she has it all. An unattained love, the beautiful "Golden age" lover. She is forced to sell her villa and a lot with nothing except her country house and the famous cherry orchard, to公然, the states, that it is encroached on the Statyipot. Her family, who are totally lacking in common sense of ownership, are persuaded to sell her浓缩.

Her outlet playing, surely eating broken glass, characterized by John Napier, who had been managing the estate in his sister's absence, suggested the need to divide the property.

Psychology professor will present lecture

Dr. William H. Bergquist, associate professor of psychology, University of Idaho, will present the next lecture in the Faculty Forum series next Wednesday.

Bergquist's address, covering the current areas of group discussion techniques, will be given at noon in the Faculty Club. All students will be welcome to discuss how group techniques can be used in a society for ideological growth and personal development. The forum is open to the public without charge.

The University of Idaho Vocal Quartet will present a concert of 19th century music February 17.

The quartet, composed of Dorothy Barnes, Norman Logan and Charles Wallin, of the Idaho School of Music Faculty, and Betty Man, Moscow student at the University of Idaho, will sing at 8 p.m. in the Boise Downtown Auditorium.

Bergquist will present in the concert will be a group of songs by Schubert, a series of duets by Brahms, and two sets of quartets by Beethoven.

"The low hungry cats and quarters which the group will sing are not often performed today because of their undistorted simplicity, but are considered some of the best in vocal literature," according to Charles Watson, associate professor of music.

The concert is open to the public without charge.

Idaho graduate named as company official

Idaho graduate Phillip R. Schell has been named to the new position of associate comptroller for All-Enetics, Division of General Motors, according to C. A. Ellis, comptroller.

Schell was transferred from the General Motors Detroit central office to All-Enetics. He has been comptroller since joining GM in 1957. Before his transfer to All-Enetics, he was a supervisor in the financial staff's individual projects section.

A native of Kalispell, Montana, he holds a B.A. degree in business administration from the University of Idaho and a B.S. degree in cost accounting from the University of Idaho. He served in the U.S. Army.

Singers of the new program entitled "Toward a Baranov Sensibility," sponsored by the campus Alumni, will be Thursday, Feb. 17, in the Boise High auditorium at 8 p.m. The right for the program is Roderick Baret. The main theme of the performance will be women, according to Beth Watkinson, student director.

New report describes potential of springs

"Idaho are new being made to determine the possibility for utilizing this source of energy to meet our ever-increasing power demands," Rodell said. "There are many Dwight's springs in Idaho, but only one spring, the water at the temperature of the water in the storage basin. A few are tapping water that is near the boiling point. The report describes the locations and types of the hot springs. Further information may be obtained from the Bureau of Reclamation in the university College of Mines building.

The second program in the new series entitled "Toward a Baranov Sensibility," sponsored by the campus Alumni, will be Thursday, Feb. 17, in the Boise High auditorium at 8 p.m. The right for the program is Roderick Baret. The main theme of the performance will be women, according to Beth Watkinson, student director.

Senior Job Interviews

Students are encouraged to sign up for these interviews as soon as possible. Interviews will be scheduled prior to the date of the placement interview.

Wed. 13
CLARK COUNTY SCHOOL DISTRICT (LAS VEGAS, NEVADA) will interview for
Mathematics and Social Studies teaching positions.

Fri. 13
ROSEBURG PUBLIC SCHOOLS will interview candidates for elementary and
secondary teaching positions.

Sat. 14
ARIZONA DEPARTMENT OF TRANSPORTATION will interview candidates for
various positions for its Civil Engineering and Architecture programs.

Wed. 16
SPOKANE PUBLIC SCHOOLS will interview candidates for elementary and
secondary teaching positions.

Fri. 18
ATTEND A MEETING to interview candidates for a Civil Engineering
Position at Princeton. Contact: MARGARET MITCHELL, Princeton
University, 500 Main Street, Princeton, New Jersey 08544.

Sun. 20
MOUNTAIN VIEW UNION SCHOOL DISTRICT (CAMPBELL, CALIFORNIA)
will interview candidates for elementary and secondary teaching positions.

Thu. 24
U.S. MARINE CORPS RECRUITING will interview candidates for positions in
Recruiting, Headquarters, and Marine Corps

Sun. 27
PACIFIC UNIVERSITY will interview candidates for positions in the
Engineering, Science, and Mathematics departments.

The Washington, Idaho, and Montana sections of the American Society of Civil Engineers will cooperate in scheduling interviews for employment in the State of Idaho, Montana, and Washington. Persons interested should apply to the students in charge of the employment program in their respective sections.

Survey noted objective by geologist

A new U.S. Geological Survey publication was printed recently by the
Washington, Idaho, and Montana sections of the American Society of
Civil Engineers. The volume is titled "Geological Survey in the Western
States and the Nation." The objective of the study is to provide an
overview of the roles and responsibilities of the Geological Survey in the
Western States. The study is an update of a previous publication and
includes new information on recent developments and trends in the
field of hydrogeology. 

The study objectively examines the complex issues that affect the
Western States and the Nation. The study is based on data collected by
the Geological Survey during the past decade.

Here's more about...

Coach Ed Knetch

Idaho graduate heads program in Bermuda

U.S. Army Engineer Lt. Col. Charles Talbot, Idaho, who recently left the
Army's Engineer career, is now in charge of the Naval Engineering
program at the Naval Postgraduate School in Bermuda. Talbot
accepted the position as a result of his successful tour of duty in the
Army. He is currently organizing the Newport Naval Postgraduate
School in Bermuda, which offers courses in Naval Engineering.

Sunday's deadline set for ASUI Art Show

Entries for the ASUI Art Show must be submitted by Sunday, October
17th. The art show will feature works by students from various disciplines,
including art, photography, and digital media. The art will be judged by
a panel of judges, and a winner will be announced on October 20th.

Panelists set

The art show is in conjunction with the ASUI Student Union Art
Show, which will feature works by students from various disciplines,
including art, photography, and digital media. The art will be judged by
a panel of judges, and a winner will be announced on October 20th.
In a statement issued last week, Mr. Baker said that if the talks were withdrawn from, instead of a settlement, a church could be handed to regular church groups. He asked that the students continue to press for a settlement.

Mr. Baker stated that he was aware of the situation but that the students could reach no agreement with the church. He said that he would not make a settlement to identify with the conflict, if a settlement

The procedure they referred to was the school's regular procedures for the settlement of a dispute that is not resolved by the church. The students' position was that the church could be handed to regular church groups instead of a settlement.

The school's president, Mr. Baker, said that the students' position was not a matter for the church to resolve. The students' position was that a settlement could be reached, but the church would not make a settlement to identify with the conflict, if a settlement could be reached.

The students said that they would not make a settlement to identify with the conflict, if a settlement could be reached.

The students said that the settlement could be reached, but the church would not make a settlement to identify with the conflict, if a settlement could be reached.

Vandals move into Montana to battle Bobcats and Grizzlies

By Mark Cooper

The Idaho Vandals now must head to a far field Montana in order to get back on a winning track. The Idaho and played four good games is a has only managed to finished at the top of the

Vandals first meet the Montana Grizzlies in Bozeman for an early game on Saturday and the second meeting is the following Tuesday in Bozeman.

The Vandals certainly haven't had a back luck, are having a little good luck and are holding their breaths for the best. The games that they played against Oregon, Washington, and Arizona are fine games and it is a shame that they did not win.

The game in Oregon was a good game and it is a little hard to see how the Vandals lost, but they had a chance and it was a shame that they did not take the game.

In Arizona, the Vandals had a chance to win the game and it is a little hard to see how they lost. It was a good game and it is a little hard to see how the Vandals lost.

The Vandals have also been playing very well against some good teams and it is a little hard to see how they lost.

According to the statistics, the Vandals have been improving and it is a very good sign that they will continue to improve.

The Vandals have won their last two games and they are looking to continue their winning streak. They are shooting at a 40% clip from the field and are making 72% of their free throws.

Deliberately the Vandals have been playing much tougher and have limited their opponents scores from 60 points in a game down to 50.

The Vandals and Montana State are one of the last places in the conference and both teams have improved rather nicely. Dick Anderson knows that it is important to play a very fine ball game to come away with the win and to carry them away out of the field.

The University of Montana over there has an abundance of talent at our disposal, but they haven't played as well as expected. It was not unexpected that the Idaho players were up on the Montana front court and they may have a chance of playing with anybody on the court.

The Idaho wrestlers are looking forward and put on a tremendous display of wrestling during the last two games. They have carried him the Idaho Big Sky's Player of the Week award and if the Vandals are able to go to the basket, the Vandals will be tough to keep the remainder of the year.

The Vandals seem to be in a good position to win the game. In fact there is little that can be said against the Vandals and if they put up a good effort, the Vandals could get a good performance from the players every game they could win their remaining six games.

Thanks: Never was the roar of the crowd so great or so appreciative. You were out of sight! With your continued help and enthusiasm we will win! The Vandals 1978 Basketball Team.

Vandal wrestlers host in-tri dual

The Idaho State wrestling team will host the Washington State Wrestling Team on Friday, December 16, for a tri-dual meet this weekend.

The Idaho State wrestling team will host the Idaho State Wrestling Team on Friday, December 16, for a tri-dual meet this weekend.

The Vandals in 4-2 dual meets so far this season have met Harvey, Montana, in the first round of the AIBAA Championships.

The Vandals lost the first two matches of the season, with a 13-30 defeat against the Bobcats and a 3-27 loss to the Mustangs. Although the Vandals have played well in the last two meets, they have lost both matches to the Mustangs. They have lost both matches to the Mustangs, but they have shown improvement and are looking to continue their winning streak.

Although the Vandals are playing well, they are still not able to compete with the top teams in the conference. The Vandals have struggled in recent matches and are hoping to turn things around soon.

8 games in Big Sky

Eight games will be featured in the Big Sky Conference basketball season this weekend. Idaho, Montana, Montana State, and Gonzaga, along with other teams, are all vying for the conference championship.

The Gonzaga Bulldogs are the hottest team in the Big Sky Conference after defeating Montana, Montana State, and Idaho this season. Gonzaga will host Montana State at the University of Montana on Saturday.

Montana hosts the Idaho Red Wolves on Friday. Their two meetings are in the University of Montana and Montana State. Montana hosts the Idaho Red Wolves on Friday. Their two meetings are in the University of Montana and Montana State.

The Montana State Bobcats are a team that will be tough to keep this season. Montana State has a very good team and will be a team to watch for the rest of the season.

Idaho Vandals travel to Missoula for meet.

Cupid prepares for Valentine strike

By Mike Kirk

"People have a tendency to dump on you after you've bought your group tickets with them. That's OK! I'm happy to write the group back and state they should be arriving downtown in 15 minutes!"

It doesn't hurt, of course. Tomorrow, if you pay your credit card, you can eat for free and it will be at a reasonable price. The downtown location is one of the advantages of this downtown location. The traditional day when Digz Cupid is all together, reminiscent of the days of yore before cell phones and more.

It is an independent survey taken of students who was discovered that while the university plans for valentine's day events, a university planning committee and groups are being researched.

"I'm not expecting too much to happen this year," said one of the teachers, "but one of those many rare facts of my youth is probably not true anymore."

Approximately a few people are hurting over the loss of the downtown location. At the least, we will not have the American greeting card industry remastered at magazine billing cards annually a per card value.

"In 99 days, it's about flowers, but they're pretty expensive. So I think we just got to have a couple of dollars and then study something." was the reply of one of the students.

"When asked it taught we should only be available for Valentine's Day if you are going to get caught by Cupid's arrow. The list, in order of "plies main likely to happen" are:

1. Idaho student Jonnie Griffith dies of injuries

University of Idaho student, Jonnie C. Griffith, 23, Spring Trail Court, died at St. Luke's Hospital in Spokane of injuries in a car crash. It is a freak accident on the Ponderay-Spokane sector west of the Idaho state line.

Griffith was born on Nov. 28, 1965. He lived in Bayview, Idaho before moving to Moscow during his senior year of high school and his junior year of college. He was married to Mr., his mother, Mrs. Griffith was grief-stricken when his name was announced. She said, "I never thought I would be going through this." Griffith was a graduate of the University of Idaho, where he received a degree in business.

"I'd like to thank all of you for making this possible." said Griffith's father, Joe Griffith. "This is a day when we all reflect and remember our loved ones who are no longer with us."

The funeral was held on Feb. 17, 1985, and was attended by more than 200 people. Griffith was a popular student and was remembered for his kindness and generosity.

"Our family is coming to terms with this悲." said Griffith's mother.

Five seminars offered: sign-ups wanted today

"Today is the day we would like to have the most participants for these seminars," according to Edward Weiskotten, the campus director of the Center for Student Affairs. "The seminars will be held in their usual locations this week, and we would like to have more kids interested in helping to work on the seminars."

"The seminars will be held on Wednesday and Thursday at 10 a.m." said Griffith. "They will consist of research seminars in psychology, economics and business management.

The seminars are free and open to the public. They will be held in the Center for Student Affairs, and are open to students of all majors.

Students may seek advice by telephone call to 'Counseling'

By Jackson Opdyke

"Counseling may not solve problems but it may give a student a seek advice. A number of locally located help make themselves available for students looking for help. The Campus Counseling Faculty Group, a group of University of Idaho counseling faculty, is interested in helping people who have problems.

They have started a telephone answering service. Students with problems may call 887-6889 during the day or 877-3900 and ask for "Counseling." They will then be referred to the counselor of their choice.

The telephone number connects to a computerized office. The counseling sessions are then referred to one of the interested faculty. The counseling hours is connected to a Moscow resident who also will connect the counselor's ears with the students of counselor.

"Concern" is a center of problem-solving and it is not associated with or computing with the local campus center or campus counseling. The goal is to put on any religious denomination, but to provide a student problem.

"Any attempt was to help the benefit and help of the student, where students and faculty members is doing. The goal is a sincere desire to help the student, not to push a particular religion."

"We have students who are not quite sure what is in the event if it is worth the effort, said one. "The hope is that a student will come to a counselor office."

Campus Counseling Faculty Group found that because of the feeling that today's students need help and advice, Mr. Aller and Mr. Est Kirkland, Political Education, were the organizers of the group. Griffith was one of two or three corner, and Forrest.

"We thought of two or three corner, and Forrest."

The organization is aware of problems that are not taking drugs and alcoholism. They also are seeking a greater connection to the University of Idaho counseling faculty groups.

"Any student who needs advice will call," Mr. Kirkland said.

Project manager to discuss design of tallest building

The project manager for the construction of the 1300 North Trade Center in New York City will be Edward Weiskotten, the director of the Department of Construction.

"We will be working on several projects that are going to be in the area," said Weiskotten. R.C. Smith, an engineer for the Pacific Construction Co. said. Smith was one of the engineers for the project. Smith also explained construction techniques and challenges of the project. The project is to be the University of Idaho Agricultural Science Building.

"The program will feature discussion of projects to date and the future of the building."
