Students vote for new officials

Students are urged by ASUI President Jim Wilkins to turn out and vote in tomorrow’s faculty election. At least 35 percent of the students must turn out to vote in order to be considered. Wilkins, who is in line to become the candidate in the approval of the 25 percent turnout, forewarns the students must be “no fence” on the new Constitution.

Voting will be conducted by the executive vice-president and Executive Board members in the Senate next Wednesday afternoon, April 13. Polls will remain open until 5:35 p.m.

Students must have their student identification cards in order to vote. Students who do not have their cards may obtain them at 8 a.m. today in the testing center, Student Union Building, and at 8 a.m. tomorrow in the same center.

For Executive Board candidates, students must cast one vote in favor of their names, whereas for Senate candidates, students may vote for fewer than their names, as they desire.

A simple majority of the student’s vote is required in the Senate election, whereas 35 percent must turn out to vote in order to be considered. Wilkins suggests dropping, “one of the best political campaigns I have ever seen” to get students interested in the student affairs elections.

Voting is conducted by placing a K in boxes below their names.

The results will be announced by Plugging a K in the box of their choice. For each of the positions, there is one office to be filled. However, in the position of the Senate, there is a second opportunity for the students to vote for the candidates on the second round.

A special edition of an election will be conducted to determine the candidates names on the ballot.

Ratslearnbasketball

Conditioning rate to play basketball is educational! Students at the University of Idaho have been trained not only mentally but also physically.

The philosophy of Dr. William Silberling, a psychologist, is based on the belief that the mind and body are closely connected. He believes that a good basketball player is one who has a sound psychological base.

In his course, "Psychology and Basketball," Silberling teaches his students about the importance of mental preparation for basketball. The students are taught how to develop confidence, focus, and self-esteem.

The course includes lectures, discussions, and practice sessions. The students are also encouraged to participate in other athletic activities as a way to improve their overall mental and physical well-being.

The goal of the course is to help students understand the role of psychology in sports and to develop skills that will help them excel in basketball.

WILLIAM BILLINGSLEY will be featured soloist at the Jazz band contest Saturday at 8 p.m. in the Musical Gymnasium.

Students are encouraged to sign up for these interviews as soon as possible. Interviews must be scheduled prior to the date of the interviews.
