Once a year the pop-eyed light of publicity is turned upon the campus, and beneath its cold glare we find what the world at large does not. Not yet active in student affairs as they are, the girls have shown an intense interest in the various schools available for women in years past, and a spirit of cooperation among the women students has led to the forming of different organizations. With this start, the women should make rapid progress, helping the men carry the responsibilities arising on the campus, and being of some actual assistance to the community.

Even as adults and students, and modern public opinion are forever searching for methods of perfection that will bring about the perfect Opuba for this and every other school. It is a close

JAPANESE ART is now on EXHIBITION

Collection Represents the Accumulation for Over 20 Years by Prof. Weaver

One of the most exclusive collections of Japanese art is now on exhibit at the Exchange Bank, following the installation of the necessary arrangements whereby a "Japanese room" may be a permanent as well as a temporary feature.

The plot is simple, the outdoor scenery retaining the character, so lovely when viewed, with each receding line intensifying the Laurentian landscape. The summer atmosphere of the Champlain district was captured throughout the collection. The objects represent a Japanese bird, a Japanese flower, a Japanese bird and flower, and a Japanese bird and flower with a Japanese bird and flower, all done by the same artist.

The globes semi-circular at the Exchange Bank will be of interest to those who have only seen a low glass-covered globe.
