A Little Optimism Goes A Long Way

by Mark Brown

Next year's team may win more games than last year, but I wasn't too low.

First to consider is a fairly obvious operation that when Goddard arrived he must have known that the team's play was nothing like the ideal it was placed around defeat, Cutler, the applied situation.

Optimism is a refreshing attribute in any person, but in a basketball coach who is wrapping up a losing season, it's a necessity.

With the Montana State bolts game, it's now or never for the Vandals to win the Big Sky Conference. The chances of a win are minimal but with the right attitude, anything is possible.

That's the attitude Goddard has seized with his team and it appears to be working.

The Big Sky Conference has always been Goddard's forte, his time at Boise State and Idaho State.

The Big Sky Conference is Goddard's home court and he understands the importance of winning.

That's why he's taking a different approach to this year's conference.

"We need to look at this year's conference as a new beginning," Goddard said. "We need to focus on the positive and believe that we can win."
