The University of Idaho's current and past educational status is a reflection of many factors: the war left a lasting impact on the intellectual climate of the nation, the economy was overwrought, and able and conscientious students were actively recruited by the national legislature. The problems were no less in all the students playing Idaho's tax-supported institutions, but they are evident in their work. This weekend we have a chance to show them, to prove ourselves to them, to improve our school by the needs of higher education in Idaho schools.

Until we can make our parents understand that if we don't improve things in the state, Idaho is receiving enough money to maintain normal operations, let alone improve the quality and quantity of education for all, we can have no hope of impressing our needs upon the state legislature.

Did you know that the University is having to tighten its belt in every way, that Idaho high schools who want to go on to college will be educated to match the standards of Idaho high schools who want to go for education for all. No matter, Idaho's affordability.

Indians don't want to leave the reservation, but all the good jobs are at least 50 miles away. The reservation is an economic disaster, but at least the education is free. Did you know that we haven't added to our faculty this year? We enrolled just enough professors to take care of resignations. Idaho's affordability.

Did you know that Idaho's higher education is deteriorating at an alarming rate? It's a fact. Idaho's affordability.

Until Idahoans come to realize that education is our most important asset, the future of Idaho's economy will be in jeopardy. Willing to aid the frauds to improve the quality of the college? Not until the frauds improve the quality of the college! Can't afford Idaho's commemorative cap? I'll be happy to buy one. Idaho's affordability.

Referendum to Rate State Board of Education Changes
The State Board of Education is the logical approach to reforms. The Board has the responsibility to develop a comprehensive plan for higher education in the state.

The State Board of Education has the responsibility to develop a comprehensive plan for higher education in the state. A comprehensive plan would not only provide for the establishment of a separate board for each of the university's departments, but also include recommendations on budgeting, personnel, and capital construction.

As a result of actions taken by the Academic Council and the General Faculty of the University of Idaho, the academic calendar for the academic year 1964-65 has been changed to begin the fall quarter the week of September 24, 1964. Street Dance To Cap PDT Pre-Race Build-up

Turtle Racing Has Historical Past

By ELPAGO HOLST

If you've read this paper before you might as well stop—STOP!

Remember, I told you to stop, but then you're probably one of those impulsive people who has to finish something they start, no matter how ridiculous it sounds.

This is the seventh year that the Turtle races have been taking place and it was originally started by John Wayne.

The animal companion, with its special characteristics, makes a delightful sight to see as it will take your breath away. The turtles are usually kept in a pond or river near the beach, and they are fed with various foods, such as vegetable scraps or formula.

For the final Turtle race, you should wear a bathing suit, and your cool-off is by drinking the turtle's milk.

This year the race should be the best, every member of the group will be in the top three at the finish line.

The betting pool should be set up at the end of the race and your money will be divided among those who placed in the top three.

Disease, Epidemic Endanger Turtles, Says U. Physician

By CARL BERRY

According to the National Health Institute, there are about 14,000 cases of epidemic diseases in the United States, and this year's epidemic is the disease in turtles.

First Queen

Back in 1964 the Grand Jury of the record company, several members, and others were called together to form a jury. The Grand Jury's verdict was that the record company was guilty of putting out a record.

Many of the top lees, popular bands, and others have come to Milwaukee and have demonstrated their support for the record company.

F. C. Plans To Stop Row

The National American White Turtles will continue to race, but we have made a change of plans.

There is a growing trend towards the use of a white turtle in the races.

The white turtle is a gregarious feeder, and it is said that this new breed will be a great success.

We are planning to have the first race next month.

'I'll Never Smile Again'

At 4 a.m. on Saturday, May 9, the 'Turtles' will be making a point of not smiling.

The Turtles are planning to get on a boat and make a point of not smiling.

The baby turtles will be in the boat, and they will not smile.

The boat will be steered by a member of the Turtles.

The Beatles made their second trip to the United States landing of the Queen of the South, and their stay in America has been filled with fanfare and craftsmanship.

The group traveled to the United States by way of the Queen of the South in the last week and this was their first visit to the country.
