Cook Ends Deanship July 1

Will Work For Govt

Dr. Earl F. Cook, dean of the College of Mines and director of the University of Idaho and director of the Idaho Bureau of Mines and Geology, has announced that he will retire on July 1, 1964, as dean of the College of Mines and director of the University of Idaho. Dr. Cook, who has been serving as dean of the College of Mines for the past six years, has been succeeded by Dr. D. R. R. Tourtellot, who has been serving as director of the University of Idaho for the past three years.

Dr. Cook served as dean of the College of Mines for the past six years, and during that time he has been active in many activities related to the University of Idaho. He has been a member of the Board of Regents and has been active in the administration of the university. He has also been active in the development of the university's programs and has been a member of the Board of Trustees of the University of Idaho.

Dr. Cook's service to the University of Idaho has been recognized by the university's administration, and he has been awarded the title of president emeritus. He has also been a member of the Board of Regents of the University of Idaho, and he has been active in the development of the university's programs and has been a member of the Board of Trustees of the University of Idaho.

Barnes, 1960. He is a professor in the Department of Geography at the University of Idaho and has written extensively on the geography and culture of Idaho. He is the author of " Idaho: The Geography of a State," and his works include "Idaho: A Geographical Geography." He is also a contributor to "The Idaho Planner," a publication of the Idaho Office of Planning and Development.

In recognition of his contributions to the field of geography, he was elected a fellow of the American Association of Geographers in 2010. He is also a member of the Idaho Academy of Sciences and the Idaho Academy of Arts and Humanities.

His research focuses on the geography of the Pacific Northwest, with a particular interest in the cultural and historical aspects of the region. He has published several articles and books on the subject, including "Idaho: The Geography of a State," which was published in 2016.

Barnes has also been involved in community service, serving as a member of the Idaho Commission on Tourism and the Idaho Historical Foundation. He is a past president of the Idaho Geographic Alliance and a current member of the Idaho Academy of Sciences and the Idaho Academy of Arts and Humanities.

Despite his busy schedule, Barnes remains active in his field, with a particular interest in the geography of the Pacific Northwest. He continues to publish articles and books on the subject, and his work is widely regarded as a valuable contribution to the field of geography.

Barnes is a long-time resident of Idaho, and he enjoys spending his free time with his family and exploring the natural beauty of the state. He is a devoted hiker, and he often takes long hikes in the mountains and forests surrounding his home. He is a strong advocate for the protection of the state's natural resources, and he is a strong supporter of the efforts of the Idaho Office of Planning and Development to promote tourism and economic development in the region.

In conclusion, Barnes is a highly respected and accomplished geographer, with a long and distinguished career in the field. His work has been widely recognized, and his contributions to the field of geography are highly valued.

His dedication to his work, his commitment to the protection of the natural environment, and his involvement in community service make him a truly outstanding contributor to the field of geography.
"One Must Enjoy Work," Mrs. Erickson Tells Group

It is not worth working when one does not enjoy his work. Mrs. Erickson, a recently appointed special lecturer at Washington University, made this point at the School of Fine Arts' luncheon meeting on Wednesday, 19. The speaker was speaking to members of Theta Rho, the University's professional organization, about the importance of enjoying one's work.

"Many people lead free spirits, but they are not happy in their work, " said Mrs. Erickson, "and a job they don't like is not worth doing." 

Greek Awards To Be Given

Presentation of the Greek Awards will be held tonight at the annual banquet in the campus dining room. The awards will be given to the students who have done the most outstanding work in their field of study.
