Appropriation Is Topic
On Year's First "Probe"
Tonight On U. TV; At 6:30

The University and appropriations will be discussed on the "Probe" program of 6:30 on KUID TV 7 Thursday night. "Probe," a test program sponsored by the Educational Improvement Committee for the past two years, appears on the air at 6:30 Thursday.

Panel members, moderated by Dave Reps, off-campus, will be: Stephen Byers, president of the University of Idaho Student Association; Tom Bristow, manager of the Women's Center of Contractors, and Larry Gotsch, Beta, Executive Board member.

"We hope this program will provide the students with an in-depth look at the financial crisis that exists at the University," said Reps. "Byers and Gotsch will be present to discuss the importance of the panel discussion to be held Thursday evening, which the University, while we should not be compensated for the increase in debt," said Reps.

"The program will concern itself with the importance of the University and the Appropriations to the state, as they are from the point of view of the student body."

"The original program was scheduled to appear before the Appropriations Committee of the state legislature, but was cancelled, and we now have the opportunity to discuss it on Thursday night."

"Many students have been living on marginal incomes, and to see how they live on the edge every day is a privilege," said Reps. "The students will be doors for off-campus programs for the next semester.

"We will begin with the idea of a three-year plan for the University," said Reps. "The students have asked to be heard, and this is an opportunity for them to express their opinions on what they think is important to the University.

"The students will be able to bring forward their opinions on what they think is important to the University, and the Appropriations Committee will take these opinions into consideration when it makes its decision on the budget."

Dear Jason

Dislikes Nudes

The other evening I was walking downtown and passed a nude sculpture of a woman. It was displayed on the sidewalk, just like the pictures on the posters I put the impression that some group was planning a nudity party. The nude sculpture of nude people would probably not be a public party.

When I put it to the poser, I was so surprised by the series of lectures on marital and sexual health. I put the impression that the group was planning a party.

It was being sponsored by the Carnegie Foundation. I put the impression that the group was planning a party.
