Boise or Moscow?

Idaho law school under fire

By Wil K. Anderson

The University of Idaho law school is facing another firestorm of questions -- the accrediting agency and Boise State University officials are among those seeking answers.

Recently, it has been reported that Idaho Law School Dean Dr. Dan Schubert has resigned from the position. However, the University of Idaho has not released any official statements regarding the resignation or the future of the law school.

Schubert's resignation comes after a series of internal conflicts within the law school. In May, Schubert and other law school faculty members were embroiled in a dispute over the school's accreditation status. The American Bar Association's PreLaw Section had issued a report criticizing the law school for its failure to meet accreditation standards.

The accreditation process is crucial for the law school's future, as it is required to maintain its accreditation in order to remain open. The school has been struggling financially for several years, and its accreditation status was in jeopardy.

Schubert's resignation follows a string of high-level departures from the law school in recent years, including the departures of former deans Steve Forney and Mike Hartung.

Forney, who served as dean from 2011 to 2016, was succeeded by Hartung in 2016. Hartung, who served as dean until his death in 2017, was succeeded by Schubert in 2017.

The law school has been facing financial difficulties, and its accreditation status has been in jeopardy. The school has been behind in its financial reports and has been unable to meet the financial requirements set by the American Bar Association.

Forney was accused of misusing the alumni association's funds, which led to his resignation in 2016. Hartung was later accused of sexual harassment and inappropriate behavior, leading to his death in 2017. Schubert has been accused of mishandling the school's financial affairs.

The law school has been struggling to find a new dean to replace Schubert. The search for a new dean has been ongoing for several months, with several candidates expressing interest in the position.

The University of Idaho is expected to announce a new dean for the law school in the coming weeks. The university is expected to focus on finding a new dean who can stabilize the law school and prioritize its financial affairs.

The law school has been facing criticism from both inside and outside the university. The university's Board of Regents has expressed concerns about the law school's financial affairs, and the university's administration has been trying to find a new dean to replace Schubert.

The future of the law school is uncertain, and the university is expected to make a decision soon. The university is expected to focus on finding a new dean who can stabilize the law school and prioritize its financial affairs.
**Old court system in Idaho goes out of existence**

*Below (AP) - Idaho's ancient and exacting court system, which was the envy of many a legalese-savvy reporter, has evaporated into a quaint and delicate remembrance in the state.*

Idaho Chief Justice Henry J. McNellis said the state's last judge sat in the old district court until the last day of court terms on Wednesday in Weiser.

The new system, which gives each of the state's 99 counties a four-member unified court, will replace the old system.

The old system was based on the model of courts in England during the 18th and 19th centuries.

The chief justice said the new system will be more efficient and effective.

Idaho student operates new "ham radio" station

Students in the University of Idaho's industrial education department are using radio technics and communications, through the operation of a "ham" radio station established last July.

Soft drink would raise funds to curb pollution

BOISE (AP) — A bill to tax soft drinks and other carbonated beverages would not affect pollution control — proposed Tuesday in the Boise House and Senate Committees.

Ray Williams, D-Boise, said the proposed tax would raise an estimated $15 million annually.

The bill would place a one-cent tax on each bottle of carbonated beverage sold and 80 cents per gallon of soft drink, with the proceeds to be spent on anti-pollution programs.

The tax would help reduce the cost of pollution control for the state.

Mr. Williams, in his argument for the bill, said his purpose was to help reduce the cost of pollution control for the state.

Mr. Williams said his purpose was to help reduce the cost of pollution control for the state.

Replying to the argument, Mr. Williams said his purpose was to help reduce the cost of pollution control for the state.

Senate debates feasibility of ski area purchase study

Expenditure of $5,860 to pay the Environmental Construction Consulting Organization for a study whether or not the Idaho Bitterroot Valley would be a good investment for the Idaho Tourism Commission. The project would be funded by the AHU Senate Tuesday night.

Senators discussed the feasibility of placing sugar beets in the Montana area and found that the feasibility study was the one for the discussion. The report said the area was a good investment for the Montana Tourism Commission. The report said that it would be submitted to the AHU Senate and the AHU Senate would approve it.
Wayne Anderson takes position as assistant

Wayne Anderson, a member of the Idaho Staff, has been named an assistant basketball coach. He replaces former assistant coach Jerry Kift in the University of Idaho Staff, which will continue in the position of basketball coach.

The move came about in the result of the resignation of the athletic director, John E. Babcock, following the departure of the head coach.

Under the new structure, the posts of assistant basketball director and athletic business manager are divided into two positions.

Wayne Anderson was the University of Idaho Athletic Department's assistant basketball coach for 11 years. He was formerly the university's basketball coach.

The Idaho basketball team will play a special round robin tournament for student-athletes. The Schick Schick Classic will be played by seven teams at the state's University of Idaho. Idaho's team, with an average of 67.8 games, will play two non-conference games on its schedule.

The cost of the trip will be $45 per person. For Idaho's schedule, including transportation, ticket sales, and lodging, it is estimated at $20 per person. Idaho's schedule is the highest in the nation.

The Idaho grappers are to meet Alberta matmen today.

The Idaho Grizzlies will be touring Alberta today. The Idaho grappers, who are expected to be one of the best teams in the state, will be touring Alberta for the first time in their 15-year history.

Idaho appears to be a good bargain on this trip.

The Idaho Grizzlies will play a 12-round schedule in Canada. The Idaho Grizzlies, who are expected to be one of the best teams in the state, will be touring Alberta for the first time in their 15-year history.

Semester grades will be mailed to local addresses of students.

A new registration card will simplify the problem of changing your address. Address the new card exactly as you address the old card after the end of second semester. Students will be notified when the new cards are mailed. They will have to change their permanent mailing address on this card, and if they wish to have a change made in the new card that should be sent, they should check the two boxes near the same. Under the new grading system, seniors, juniors, and graduates will receive their grades via the Post Office on a confidential campus mailing.

A new international method of registering attendance in classes and colleges of the University will be in operation this year. Students will receive their own personal copy of the card five days after registration by a confidential letter.

The proposal was found agreeable to the students in the trial base who have done so since the Board of Regents decided to go with the new system. After the test period, the system is expected to be used throughout the University.

The Board of Regents has recommended to the Faculty Council recently by M. T. S. Davis, University Registrar, sending grades to selection and a record of the procedures of Rights and Responsibilities in the past semester.

CHOOSE THE CORRECT ANSWER FROM THE FOUR (OPPORTUNITY)

1. What is the best way to get to the campus library?

a) take a shuttle bus
b) walk on foot
c) drive with a friend
d) take the train

2. What is the main course feature for dinner at the dining hall?

a) pasta with meat sauce
b) stir-fry with vegetables
c) roast chicken with potatoes
d) grilled fish with rice

3. How many students are enrolled in the University?

a) 30,000
b) 40,000
c) 50,000
d) 60,000

4. Which building is the most famous on campus?

a) the old library
b) the student center
c) the science building
d) the art building

5. What is the most popular extracurricular activity for students?

a) student government
b) sports
b) music groups
d) volunteer work

6. Where can students find information about campus events?

a) the student newspaper
b) the campus website
c) the bulletin board
d) the campus radio station

7. What is the average GPA of a first-year student?

a) 3.0
b) 3.5
c) 4.0
d) 2.5

8. What is the university mascot?

a) the bear
b) the eagle
c) the ram
d) the lion

9. Which professor is the most popular among students?

a) the math professor
b) the English professor
c) the history professor
d) the physics professor

10. What is the largest building on campus?

a) the gymnasium
b) the students center
c) the library
d) the auditorium

Sporp dance scheduled

The Spor Registration dance will be Feb. 2, from 9 to 11 p.m. with Kentucky Blue Grass pre- forming. The dance will be open to all students aged 21 or over for $1 per person or $5.00 per couple.
