Liberalization movement challenges traditional gender roles

By Linda Fairstein

Putting down the disinherited and taking up the cause, feminists were the last to sit down for a meal. They have been subjected to social and cultural pressures in many instances, including academic institutions. Some professors, former women, were raised in upper-class society and are part of society that is traditionally used to being discredited.

There are, for example, five women

What happens when two female journalists graduate and go out to get men

Actually, both women are equipped with all sorts of special interests that are well suited to the career that they have chosen.

They are said to be naturally creative and imaginative. Some of the women who have been interviewed for this article have showed great interest in a field that is traditionally used to being discredited. However, it is important to note that these women have not been discredited due to their success in their chosen field.

As a consequence, one judge by the U.S. Supreme Court, Mr. Justice William O. Douglas, has stated that these women have not been discredited due to their success in their chosen field.

In fact, it appears that some women who have been discredited have been discredited by people they know. In any case, the women have been discredited by people they know.
Abortion and the unjust law

The Abortion is in the process of breaking the law. It is a political and social issue that affects the lives of many people. It is a matter of personal choice, and there are various opinions on how it should be handled.

The problem of the law on the campaign against abortion is complex. It involves many factors, including religious, political, and social considerations.

In America, and certainly in India, we pride ourselves on our freedom. Providing information on abortion and the unjust law is necessary to keep the public informed and to help individuals make informed decisions.

SEX IS YOUR BUSINESS

We believe that sex is an inalienable right of every individual. It is a fundamental aspect of human life and should be respected and protected. It is important to understand the role of sex in our lives and to make informed choices about our sexual practices.

Radio T.V. and music. In the past the two have never really mingled at least not openly. Women were locked shaky away in their own, socially defining way, or performing other more secretarial functions that made space between both their actual productive work.

Now women are filling the positions and proving their worth. It wouldn't be too strange to see a woman at the position of a director, producer, or even as a disc jockey for a radio station.

A lot of the change is starting at the high school level. More women are seen today in the field of radio television every year as tapes are used by everyone in the classes. The men are given every opportunity to enter into commercial broadcasting with a knowledge of the business equal to any of their male classmates. William A. Byrd, an instructor in the radio T.V. dept. and "Crest." I would encourage more to try those same paths. It's an occupation that at this time is the only way a woman can make a living and gain a position in the PR relation-dealing.

One good example is Mike Maddox, a senior and a graduate, and feels that she has been accepted in her chosen field and can be differentiated against. Whether she anticipates any problems after applying for a job, she replied, "probably but I don't intend to go up."

Women and the press

(Continued from page 1)

These changes are indicative of the changing attitudes toward women journalists. However, in some areas, the female is still denied the same opportunities.

For example, the managing editor of one daily newspaper avoided promoting a competent reporter recently that she would have to cover such a story in a pay the salary of a male reporter.

Two other general reporters, both men, were broken down and put back to the night

A bill to eliminate the need for senate approval of appointments for media relations and emeritus was defeated at the senate meeting Tuesday night.

The bill, sponsored by Connie Davis, would have eliminated the former appointment process in the communication board. Davis felt that the senate was being squashed too much and felt that the bill did not conflict the committee nor did it force by the communication board. Rum Wall noted, however, that some committee need to be expanded.
