Tenure Proposal Passes; Now On to the Regents

By Kent Bird

With surprisingly little discussion, the University Faculty Senate overwhelmingly approved a prepared proposal on tenure policy - this month's deal that was rejected earlier as a major change.

The policy will be put to the Board of Trustees for final approval at its meeting week in Pocatello.

Woodruff in the new director of the Personnel Office, October, include provisions for students to make assignments on a voluntary basis and to require counseling assignments on a voluntary basis. The differences in the two policies in the amount of administrative support given to the faculty.

The senate meeting saw only one major change in the proposal, the policy, during the meeting which provides that when a faculty member has not been offered a new year of service with the University this week in Pocatello. It will be on to next level in the most recent year's salary for each year of service with the University.

If a faculty member is dismissed through layoff or by firing, suit should be initiated in order to change his status as a full-time employee. This new policy was reported by the University faculty, who noted that the policy would also mean that if a faculty member is dismissed the University would be required to pay the full amount of the salary for the year of service with the University.

Comet Kohoutek Itsself This Month

By Jackie Johnson

American Federation of Women Teachers

Before Christmas, the Kohoutek comet can be observed at an interesting angle for a period of several days. This time, the sky is fascinating with interesting phenomena which may prove closer than before.

Comet Kohoutek was discovered on November 2nd by an astronomer named Laevi Kohoutek. Since then it has been one of the brightest, largest, and most comets of the year. While the comet appears to be near Earth in a way, the Kohoutek will be more prominent in the sky after midnight.

Although comet sightings are fairly common in the sky, this month's comet is especially bright due to its close proximity to the Sun this year. This comet is on a one-in-several-thousand orbit to the Earth and it is not very bright.

Thank you for responding to Lynn Pope's letter. I must voice a strong opposition to her point of view. Defining women as "specifically are women workers" she perceived a task of the faculty.

Wilderness

By John Hoche

Buildings have been constructed, roads have been engineered, railroads have been built to facilitate the transport of wood and minerals. The area is now considered to be a wilderness by many. But the area is not a wilderness in the traditional sense. It is a wilderness in the sense that it is a place where people can live and work. It is a wilderness in the sense that it is a place where nature can flourish. It is a wilderness in the sense that it is a place where human beings can find solace and escape. It is a wilderness in the sense that it is a place where the natural world can be left undisturbed.

Primitive Vs. Productive?

By John Hoche

The wilderness is a place where people can live and work. It is a place where nature can flourish. It is a place where human beings can find solace and escape. It is a place where the natural world can be left undisturbed. It is a place where people can enjoy the beauty of nature. It is a place where natural resources can be used to benefit people. It is a place where people can learn about nature.

Low Key Setting Would Help Relations

By John Hoche

The visibility of the administration is not to be underestimated in the wilderness. For example, the government can use the wilderness to promote its agenda. The government can use the wilderness to promote its views. The government can use the wilderness to promote its policies. The government can use the wilderness to promote its interests. The government can use the wilderness to promote its goals.

The wilderness is a place where people can live and work. It is a place where nature can flourish. It is a place where human beings can find solace and escape. It is a place where the natural world can be left undisturbed. It is a place where people can enjoy the beauty of nature. It is a place where natural resources can be used to benefit people. Superstar on the Screen

Moscow Ministers Talk About the Cinema Christ

By Peggy Kellogg
Assistant Staff Writer

Jesus Christ, the Superstar, has finally made it to Moscow. The sacred motion picture, "Jesus Christ Superstar," will play at the Moscow Film Theatre through Oct. 1.

Christians here have expressed a diversity of opinions about it, ranging from enthusiastic support to outright condemnation. Some say there is no Jesus Christ without him, while others turn up their noses at what they see as a profanation of Christ's sacred name and suffering. The Moscow Sunday Bulletin, in an editorial, said, "This is no film for those who want to see a 'light' in the movies, the Bibles in their hearts."

Dr. Bryan Wilson, director of the Lutheran church in Moscow, has not seen the movie, but said he is afraid it will have a bad influence on the young people who will see it. He said the Bible had warned against displaying images of the Father, Attorney General, and Son. He said he will not attend the movie, but his wife will.

"In a period of the church to call for war, I think it is interesting how the Superstar is doing its thing," he said. "It may be a call to war, but we are not going to answer it.

Robert King, assistant minister of the Lutheran church, said, "The movie is a threat to the Gospel, but I will not accept that."

The movie "certainly has a flaw," he continued. "One can use images to communicate the gospel, and we must be open to that."

Dr. Wilson said, "I don't think the movie is what is needed to bring the message to people."

Everybody's Narcos

But the Moscow people are not worried. It's assuming the role of potential sagas in the future will eliminate the possibility of seeing the film. They say the film will teach them to live more and love less.

Some people, like Robert King, said the film is a threat to the Gospel. But, he added, "I think it is a threat to the Gospel, but I will not accept that."

The film is in its second week of release in Moscow, and the students of the city have expressed their opinions about it.

It's not the first time a film has been broadcast in the city. In the past, people have refused to go to the theater because they didn't want to see the film. But this time, they are not so concerned. They say it's not the first time they have seen a film that is not appropriate for their age group.

And the students are not the only ones who are concerned. Many parents are worried about their children watching the film, and they are not sure what to do.

"The film is not appropriate for our age group," said a student. "We are not sure what to do."

But the Moscow people are not worried. They say the film is a good way to learn about the Gospel, and they are not concerned about its content.

Class Size Disagreeing

"We are concerned about the size of the classes," said a teacher. "The size of the classes is too big."

A school in the city said it is concerned about the size of the classes, and it is planning to hire more teachers. The school is in the process of hiring more teachers, and it is expected to have more teachers next year.
