Board opposes tuition

BOISE, Idaho. The Idaho Board of Education, in a 7-to-1 vote, has rejected the university's proposal for a tuition freeze for the Fall 1976, and voted for an increase. The proposal was defeated by the number of votes necessary to pass the amendment, 7-1, Dr. J. Glenn Brown, chairman of the Board, said that the amendment was defeated by the required number of votes, 7-1.

City council debates campus drinking

BY RANDY STAPLES

The Moscow City Council has put off all of the special question: should the University of Idaho have a policy on campus drinking? The council has decided to consult with the university on this matter, and the university has agreed to consider the council's concerns.

Robert Warnick, a member of the council, said, "We want to know more about what is happening on campus. We need to understand the problem before we make any decisions." He added that the council is "very concerned" about the issue and that they want to take it "very seriously." Warnick said that he believes the university should be making the decision, not the council.

The council's decision comes after a series of recent incidents on campus involving alcohol, including a fraternity party where a student was found dead and a recent rape report. The council has been working with the university on these issues, and they hope to see more progress in the near future.

"We are concerned about the safety of our students," said council member Jane Rein. "We want to make sure that they are protected and that the campus is a safe place." She added that the council is "fully committed" to working with the university on this issue.

The university has not yet responded to the council's request for information. A spokesperson for the university said that they would look into the matter and provide a response in the future.

The council's decision to consult with the university on this issue is a positive step toward addressing the problem of campus drinking. The council should continue to work with the university to find solutions, and the university should take the issue seriously and work to create a safe and healthy campus environment for all students.

Back to basics—herbs and spices

Herbs and spices are the original flavorings. They are used in medicines and wines as well as in cuisine. Spices are defined as the particular part of a plant of dry or live trees, herbs, shrubs, or vegetables, that is used to flavor food. Spices used to be the target of a lucrative trade.

Spices have been held in high esteem and considered a luxury throughout history. Ancient China was known for serving dishes at a fasting party by spices. The spice trade promoted the exploration of the farthest reaches. It had the power to shape the national and personal economies of the nations involved. The spice trade stimulated the discovery of the New World and the New World spices added to the spice trade. French explorers were distracted by the spices, rather than the native Indians.

Spices can be used safely in order to achieve a similar effect without becoming too expensive. Inexpensive spices can be a useful addition to a gourmet; however, they do not always bring out the flavor in the dish as well as a more expensive spice might. It is best to buy the spices you use more of in bulk and to use what you have on hand when the dish is ready to be served.

There are many herbs and spices available to the gourmet. Here are some of the more common and highly regarded.

Herbs

- Cumin
- Fennel
- Allspice
- Saffron
- Nutmeg
- Cloves
- Dill
- Thyme
- Rosemary
- Basil
- Bay Leaves

Spices

- Turmeric
- Nutmeg
- Cumin
- Cloves
- Black Pepper
- Saffron
- Coriander
- Cinnamon
- Dill
- Allspice

Herbs and spices can be used in a variety of ways. They can be used in marinades, sauces, or dried and ground for use in baking.

For example, turmeric and coriander are usually used in marinades and as spices in baking. They can also be used as a garnish. Turmeric is often used to make curry powder. It is also used in the making of Pickling spice.

Pickling spice is a combination of 2 tsp. of dry mustard, 1 tsp. of coriander, 1 tsp. of whole cloves, 3 whole allspice, 1 tsp. of whole nutmeg, and 1 tsp. of ground cloves. The spices are combined by grinding andc and then added to a gallon jar of pickling vinegar. The vinegar is then allowed to sit for 1 week before being used.

Eating the right combination of herbs and spices can be beneficial. For example, turmeric is a natural antiseptic and has been used to treat various ailments, including colds and flu. It is also used to treat digestive problems and skin conditions.

Cumin is a natural diuretic and has been used to treat water retention and edema. It is also used to treat digestive problems, including indigestion and flatulence.

Allspice is a natural antispasmodic and has been used to treat digestive problems, including indigestion and flatulence. It is also used to treat respiratory problems, including colds and flu.

These are just a few examples of the many herbs and spices that can be used to enhance the flavor of a dish. By using the right combination of herbs and spices, you can create a dish that is both delicious and healthy.

Reflections of a college graduate

Letters

How can something so abstract as religion be expected to hold so much weight in a debate as something so new as free will? Question, "keep it up," was looking for something else to say than the obvious. It was seeking something more important and more meaningful to say. It was seeking something that could make sense of the world and its complexities, rather than just repeating a tired and meaningless phrase.

So, Mr. Steiner, please stop using his name and let me have a chance to get my ideas across. I believe that religion is not a necessary evil, but rather a necessary way of life. It gives us a sense of purpose and direction in a world that can be so chaotic and confusing. It gives us a framework for understanding the universe and our place in it.

I hope you will consider these points and think about them. I believe that religion is a necessary part of our lives, and I trust that you will come to the same conclusion.
Senator speaks

The proposed increase in the University of Idaho tuitions was discussed, according to Senator Jerry Aldous, chairman of the Senate Finance Committee, in a press conference here yesterday morning. Senator Aldous emphasized the confusion and misunderstanding about the increase in tuitions. He indicated that some of the alternatives we should look for are increasing the enrollment and lowering the costs of education.

Senator Aldous also pointed out that the Senate had decided to introduce a bill to allow the university to raise the fees every semester, and that if the Senate approves the bill he will be introduced to the House for consideration.

This bill would allow the university to increase the tuitions every semester, and it would be an alternative to the increase in the national budget that the university has been facing.

Senator Aldous added that this would be an opportunity for the university to examine their budget and to make necessary adjustments.

On another note, Senator Mark Kline said that the university should be given the opportunity to raise the tuitions, as it is their right.

Weaknesses were also reported in the Senate's attempt to increase the tuitions, as some students are not aware of the increase and some are unable to afford it.

Wilderness grant given

Undergraduate students in any discipline at the University of Idaho were invited to spend a month in the wilderness as part of their studies. The students were required to take a course in environmental studies and to spend a month in the wilderness as a part of their studies. The students were also required to write a report on their experience.

The wilderness grant was made to the students to encourage them to explore the wilderness and to learn about the environment.

The wilderness grant was made to the students to encourage them to explore the wilderness and to learn about the environment.

Politics in the Dome

The Student Senate, a group of elected students, will hold a meeting on the second Wednesday of each month at 3:00-5:00 in the FTD Center. The meeting will be open to the public and will be held in the FTD Center.

The Student Senate is a group of elected students who represent the interests of the students. They are responsible for making decisions that affect the students, such as the budget and the rules of the university.

Songstress Holly Near
Performs February 27

MCDOUGAL A new and delightful contemporary folk singing sensation, Holly Near, will be in concert Friday, Feb. 27, when Holly Near begins her Pacific Northwest tour with a concert at the University of Idaho.

Ms. Near has been hailed by newspapers across the country as an accomplished composer and songwriter with a voice that is strong and lyrically subtle and affecting. She is not the everyday folk singer.

Her new album includes the Wavens, Judy Garland, Bob Dylan, Anita Franklin, the songs of the labor movement and the struggle for civil rights.

Ms. Near and pianist Jeffrey Longley will perform at 8 p.m. in the Taylor Hall Union Ballroom. General admission tickets are available now at the SUB information desk, the U of I Women's Center, Bookpeople of Moscow, Micro Movieland, Three Forks Music in Pullman, the University of Idaho Women's Center and the Lewiston Women's Center.

Sponsoring the concert are the U of I Women's Center and Moscow Friends of the Arts.

Raised on a small cattle ranch near Ukiah, Calif., Ms. Near was never exposed to the world of entertainment. She sold vegetables and fruit to earn money. She was a social worker, a special education teacher, a housewife, and a mother of two children.

Based on a small cattle ranch near Ukiah, Calif., Ms. Near began singing at age seven in front of the television. At age 14, she was performing in a lead role in the Philhill Auditorium in Philhill, Washington, and at age 18, she was performing in a lead role in the Philhill Auditorium in Philhill, Washington.

Today, Ms. Near and Mr. Longley have produced two record albums. "Living in These Times," and "Live," and a third album, "You Can Know All About It," is scheduled for release in time for her Moscow concert.

Exchange forms are available

Opportunity, a national organization dedicated to the promotion of the SUB, is now available at Carls

Baha'i Faith:
Oneness of mankind aids peace

An open view of the possibility of achieving world peace is held by Dr. Dorothy W. Nelson, of the Law Center, University of Southern California, who was here for a four-day visit.

Dr. Nelson points to the need for the world community to work together in order to achieve peace.

Women's contributions are significant, and they have to be recognized, she says.

She believes that the need for peace is not new, and that it has been recognized by the world over the years.

She suggests that peace is not an easy concept, and that it requires a lot of hard work.

At the end of the last situation, the need for peace was recognized, she says, but it has been difficult to achieve.

Women's athletics are coming of age

The U of I women's basketball team, one of women's gymnastics, the swimming team, the cross-country team, the tennis team, and possibly the golf team are in the forefront.

The U of I women's basketball team is one of women's gymnastics, swimming team, tennis team, and possibly the golf team are in the forefront.

With the sudden influx of money and interest into women's athletics, there has been a rise in the number of teams that have become competitive. In addition, there have been more opportunities for women to participate in sports that were previously considered to be men's sports. The U of I women's basketball team is one of the teams that has become competitive in recent years.

The U of I women's basketball team has been successful in recent years due to the efforts of its coaches and players. The team is known for its defense, and it has frequently been ranked among the top teams in the country.
