Of Easter and bunnies

by MARY BORON

Four months ago we celebrated the birth of Christ, that humble and innocent baby, and this Sunday we will be celebrating the birth of the Easter Bunny - a cartoon character that is popularly accepted as a symbol of Easter. The Easter Bunny is a fictional animal that is depicted as a large rabbit with long ears and a black nose. It is said to bring presents to children on Easter morning and to hide chocolate eggs around the house. The origin of the Easter Bunny is uncertain, but it is believed to have been inspired by the traditional Eastern European figure known as the Easter Hare. The Easter Bunny is a popular symbol of Easter and is often associated with the act of giving and receiving gifts.

Budget proposals prepared

The ASUI budget that will be prepared by the Student Finance Committee early next year may suffer from cuts.

Four areas get very large increases in percentage of their current subsidy—the ASUI Senate, the Communications Department, The Academic department and the Argonaut. These communications and cooperative services departments each took on major new functions for men our communications of production, printing, and special photography, and special programs of cooperative services.

The biggest cut in was in General Management, which dropped $2,000 from last year's budget. The total income for the ASUI was expected for next year at $33,000.50, as opposed to last year's $35,265.00. This will make income up considerably, and the Argonaut expected to make all its $90,000 budget to be made through advertising and other revenue.

However, a few Prodigies have been acquired which would spend copy and petty expenses without help from the Argonaut.

Income from the enrollment department was not figured into this year's budget, that always will be figured on a case-by-case basis.

The budget will be presented to the ASUI Senate Tuesday.

ASUI positions open

There is currently a position open in the ASUI Student Community Services Committee. Any student interested in organizing pathology for the special and academic departments or participating in the ASUI Senate may apply for the position. Mrs. Rush in the ASUI Program Office.

on death, taxes and fee increases

Editor's note: This column will be published in the Idaho Statesman and the Student (newspaper of the University of Idaho). The column will run on a regular basis and will focus on issues related to death, taxes, and fees.

Death, taxes, and fees are an inevitable part of life. But with the right planning and preparation, you can minimize the impact of these expenses on your finances.

One way to minimize the impact of death expenses is to have a comprehensive estate plan in place. This plan should include a will, a power of attorney, and a healthcare power of attorney.

Another way to minimize the impact of death expenses is to consider life insurance. Life insurance can provide financial protection for your loved ones in the event of your death.

Taxes can be minimized through a variety of strategies, such as tax planning and tax-advantaged investments.

Fees can be minimized through careful planning and comparison shopping. For example, when opening a new bank account, compare the fees and services offered by different banks.

In conclusion, by taking steps to minimize the impact of death, taxes, and fees, you can ensure that your financial future is secure and that your loved ones are well cared for.

...and let the neighbors vote

Editor's note: This column will be published in the Idaho Statesman and the Student (newspaper of the University of Idaho). The column will run on a regular basis and will focus on issues related to the Idaho Legislature.

The Idaho Legislature is an important component of our democracy. It is through the Legislature that laws are passed, budgets are approved, and decisions are made that affect the lives of Idahoans.

One issue that the Legislature deals with is the issue of letting neighbors vote on developments. This is an important issue because it allows neighbors to have a say in decisions that affect their community.

In conclusion, the Legislature is an important part of our democracy. By participating in the legislative process, we can ensure that our voices are heard and that our communities are represented.

ATTENTION: AG MAJORS

Even thought of becoming a Peace Corps volunteer? No question, ag positions overseas in the Peace Corps are a bit different from the more traditional farming jobs in the United States. Like affecting the future farming practices of an entire country, such as Prince or Malaysia.

Even though Peace Corps ag assignments mean long hours, low pay and a certain amount of frustration, there are rewards for special kinds of people. Like working and living in a developing country. Learning a new language and culture. But most of all, helping people where there's work to be had.

Apprently, these compensations are enough to attract many Americans. 65,000 since 1961. And 10,000 of them have been agriculturalists.

Currently the Peace Corps has volunteer opportunities in a wide variety of agricultural skills and disciplines. These include agronomy, horticulture, range management, ag engineering, ag economics, ag education, animal science, agricultural extension, and research.

Problem is the Peace Corps is now taking applications for 1977. And most of the agricultural positions have already been filled. But there are still openings in many other areas.

The deadline for applying for programs that begin this Summer is right around the corner. A Peace Corps representative can give you the complete information on each opening. An interview is all it takes.

U.S. citizens only. Single persons, or couples without dependents preferred.

### REVIEW

**All the President’s Men**

by **DAVID RINEHART**

I have to admit I was pleasantly surprised by ALL THE PRESIDENT’S MEN. It was good. Very good. It was so good that I was surprised by the way it ended. I don’t know if this is the kind of movie that I would want to watch again, but I enjoyed it. I thought it was well-written and well-acted. The actors were great. They did a good job of bringing the characters to life. I was especially impressed by the way they captured the atmosphere of the time.

The story is about the Watergate scandal and the resignation of President Nixon. It is told through the eyes of two Washington Post reporters, Bob Woodward and Carl Bernstein. They were the first to break the story, and their reporting was instrumental in bringing the scandal to light.

The movie was directed by Alan J. Pakula, who is known for making movies like *All the President’s Men* and *The French Connection*. I think he did a great job. The movie had a great sense of atmosphere, and it was well-paced. The actors were great, and they all did a good job of bringing the characters to life.

Overall, I think this was a great movie. I would definitely recommend it to anyone who is interested in history or politics. It was well-written, well-acted, and well-directed. It is definitely worth watching.

**One Flew Over the Cuckoo’s Nest**

by **SARAH F. PHILLIPS**

Not surprisingly, the movie *One Flew Over the Cuckoo’s Nest* is based on the novel by Ken Kesey. The novel is a classic, and it has been adapted into a movie multiple times. I think the movie was well-done, and it was a great adaptation of the novel.

The movie was directed by Milos Forman, and it was well-paced. The actors were great, and they all did a good job of bringing the characters to life.

Overall, I think this was a great movie. I would definitely recommend it to anyone who is interested in history or politics. It was well-written, well-acted, and well-directed. It is definitely worth watching.

Now... It’s up to You!

I Let the Colonel Do the Cooking...

I have to admit I was pleasantly surprised by the movie *Now... It’s up to You!* It was good. Very good. It was so good that I was surprised by the way it ended. I don’t know if this is the kind of movie that I would want to watch again, but I enjoyed it. I thought it was well-written and well-acted. The actors were great. They did a good job of bringing the characters to life. I was especially impressed by the way they captured the atmosphere of the time.

The movie was directed by Alan J. Pakula, who is known for making movies like *All the President’s Men* and *The French Connection*. I think he did a great job. The movie had a great sense of atmosphere, and it was well-paced. The actors were great, and they all did a good job of bringing the characters to life.

Overall, I think this was a great movie. I would definitely recommend it to anyone who is interested in history or politics. It was well-written, well-acted, and well-directed. It is definitely worth watching.
