CAMPUS KATIE

You can smoke, but you can’t have it both ways. Smoking is far from being just a social habit or a personal preference. It is a habit that can seriously impact your health. And if you’re a student, it can also affect your academic performance. So, choose wisely. Be and remain a non-smoker if you can.

You are an experienced smoker, and you know your brand!

You know good tobacco. You know taste and tradition. And you insist on the best—Camel. Only the finest tobacco grown are good enough for you. For you, the experience has to be exceptional. Whatever you do, you’re going to do it right, if you know it.

If Camel weren’t the best, they wouldn’t be far away from the best. If Camel weren’t the best, they wouldn’t be the overwhelming preference of smokers who have tried every brand.

Your taste tells you the tobacco differences in cigarettes and you’re going to smoke the best. Your advice to others is—"Have a Camel!"
