DIAIRYING COURSE IS VERY COMPLETE

Short Session Will Occupy Five Months of Farmer's Off Season

The most complete short course ever given in dairy courses is that which will be given by the University of Idaho Extension dairy department.

The course will start May 1 and will close Sept. 30.

Mr. and Mrs. C. C. Worthington, of Worthington Dairy farm near Spokane, are well-known dairymen. They will come here May 1 and will continue to Dairy College June 8. The course will be held in a common barn and in a workshop.

Two new courses are included in the regular course:

1. A course in dairying business for farmers who are interested in the dairying business.

2. A course in dairy farming which includes the care of cows, the care of calves and the care of horses.

The course is in dairy farming which includes the care of cows, the care of calves and the care of horses.
