Electric Cookery has many advantages over older cooking methods. Meals cooked electrically are unusually delicious—perfect results are assured. Food can be placed in the automatic oven and forgotten until serving time. Golden, carefree hours of leisure are made available. The Electric Range is economical and safe. You will take pride in your kitchen, too, it will be cleaner and cleaner when you cook more effectively. Let us give you its advantages more in detail.

The Washington Water Power Co.
BE MODERN, USE PSYCHOLOGY TO GET YOUR MAN, SAYS COED

By Dorothy Fustie

Girls, there’s no doubt of it. Psychology is precious. Particularly if you are a modern girl. A modern girl who isn’t overweight, educated. Following Science, Coed, in a gray-green gown, approached the lectern of the physics department and, in a monotone, delivered a lecture on the use of psychology in getting a man.

"Unfolding phenomena in the nature of love," she smiled. "with the aid of a test of the IQ of your potential suitor. How fast does he locate the woman he wants? How does he appraise her personality? How does he define her in his courtship behavior?"

The lecture was met with a whoop of laughter from the ladies in the audience. Following Science continued:

"You must begin your psychological tests early. You are not just looking for a man to marry you. You are looking for a man to become your husband. You must understand his true self."

"What about us, girls?" one of the audience members piped up. "What do we do with the guy who has a low IQ and keeps filling up the test with his homework?"

"Use psychology," Following Science replied. "Talk to him. Make him feel loved. Make him feel that you are the one he’s looking for."

"And what if he doesn’t want me?" another girl asked.

"Oh, I’m afraid that’s where the real test comes in. You must use your psychology to make him want you. But that’s a story for another day."

SPECIAL INTRODUCTORY OFFER

To every girl on the campus who brings this coupon clipped from Tuesday’s Argonaut we will allow 25 cents on a pair of Deedly Repello Silk Hose.

This coupon is worth

25¢ 25¢ 25¢

when applied on the purchase of One Pair of Deedly Reppello Silk Hose.

The Parisian

Mould the man first, then the metal

CARNegie developed the steel in-
dustry by first developing his men.
The Bell System is growing faster than ever before in its history and this graph, like the steel growth, is based on the development of men.

Today, in the telephone industry, men in supervisory positions must co-
dordinate many and varied factors. For example, before locating a new central office, population trends are studied. While it is being built, telephone appara-
ture is planned, made, delivered and installed on orderly schedule.

But more than this, the executive shows leadership by his in-
sight into the human equation and by the sympathy and understanding with which he adapts individual to job, moulding his men first.
