Modern Kitchen Equipment Speaks Up
Preparation of Home Meals in Hour Hall

by Glen Shear

Every evening the housekeeping student in Hour Hall is faced with a problem of cooking a meal that is more plentiful than at home, as well as more nutritious. When the student first steps into the kitchen, she is confronted with a large number of unfamiliar operations. Many students find that they need a great deal of time and effort to prepare their meal, which is not surprising considering the fact that they are not experienced in cooking. However, with practice and determination, they are able to improve their cooking skills and prepare meals that are both nutritious and enjoyable.

AQUATIC MEET

Starts April 1

In the swimming pool with the drop of April, swimming is at its peak. Every week there are new records being set, and many students participate in this sport. The pool is open from 9:00 a.m. to 8:00 p.m. every day, and students are encouraged to swim and participate in the meets.
