Turn the light on the Truth!

It’s just naturally good tobacco — not “artificial treatment” that makes OLD GOLD gentle to the throat and better to the taste.

No one cigarette-maker has any monopoly on the heat-treatment of cigarette tobaccos.

For heat-treating is neither new nor exclusive. It has been used for years by practically all cigarette-makers to “set” and sterilize their tobacco.

Beaded O.t.o.’s goodness does not depend on artificial treatment. It is the product of naturally good tobacco — carefully selected for mildness, smoothness and flavor.

Try a package. You’ll immediately get the thrill of this smoother and better cigarette.

And you’ll know then why OLD GOLD’s sales are ALWAYS THREE TIMES GREATER than the combined growth of three leading cigarette brands during a like period of their existence.

Better Tobaccos make them smoother and better — with “not a cough in a coldroom”.

What is
Doraldina’s “Allura”?

It is Madame Doraldina’s answer to woman’s skin care problems. It is the perfect beauty treatment and in its own right is a perfect cosmetic. The “Allura” essence is composed of mild fragrances and fillers in the tiniest lines and ointments, going to the complexion with transparency and youthful bloom. “Allura” protects the skin against perspiration and sweat, giving moisture and beauty, and destroys that dark appearing you wear!

DAVIDS

"Exclusive. But Not Expensive"

Both are lines of national defense

The telephone was the first line of defense, for over it were the words against the foe that were directed. Maintenance men performed the same service in old telephone men in the signal corps in the war.

In the daily life of the nation, just as surely as in emergency, the telephone

means an ever-growing stream of demands.

To do this successfully the Bell System's expansion program endures from coast to coast through the ether and under the sea, to cities at 10,000 and places in the air—above all, wire facilities that carry the voice, the type of voice, the picture to every corner of the land.
