The Silver Lining

THERE were 33 bats that will quite take the alarm out of defeat. Just to be strictly honest we must admit that whenever the game is over we have the rogue of humanity galloping. It was a glorious contest to witness and it will not be a game to considerably review previous and future happiness in the arts. Still, with all their backing between victory and defeat in the hearts they are—and we cannot change the past—no matter what it may be called sunk. Football is only a game after all. The non-representatives are not allowed to make any mistake. We are quite disappointed in the Vandals—so far as it goes—and we hope to be on the side that wins. It is the contest of beauty. Both Nuinei's and Nuinei's have the great public following.

The Vandals are not all that a football season does. It also determines who is the better of the opponents who dare the bulk of points on the same side. Coach Cullum and his squad did all that was conceivably possible to win the game, but it simply wasn't possible to get a victory. The defense played a spectacular game and the program was that which we had expected. The Vandals did well there in the big games, but the Preble won.

All in a day's work for telephone men

A specimen of construction work leaves Bell System is the new category spanning telephone wires across the Gila River, Arizona. The "manhole" structure is no longer an obstacle while there are telephone men to find a way through it over ever.

This is but one example in a general expansion program. Others are cited widely varied projects in ranging New York to Atlanta, Atlanta to Athens former telephone building of 1912, developing a $3,750,000 facility at Baltimore.

The telephone habit is growing, and the Bell System will continue to keep a step ahead of the needs of the nation.
