The usually reserved graduates of the Oregon State College of
Women and the Oregon State College of Men have taken daring
steps to change the atmosphere of the campus. The women have
begun to organize a chapter of the National Women's Fraternal
Organization, and the men have taken a leading part in the	
National Men's Fraternal Organization.

Those who remember the Coral Bells and Jeans, the events that
took place at the University of Oregon, will be interested in the
activities of these two organizations. The Coral Bells are planning
a series of events to be held on the campus, and the Jeans are
considering a similar series of events.

The southern division of the Coral Bells is now in the process
of planning a series of events, which will be held on the campus
in the next few weeks. The Jeans are also planning a series of
events, which will be held on the campus in the next few weeks.

THE ORANGEMEN, Oregon State College, the society that
bears the same name as the Oregon State College, is planning a
series of events to be held on the campus in the next few weeks.

N. S. F. A. President Declares Students Can Take Big Part in World Work

Dr. Murrow, president of the American Forum of the Neutral
States, has declared that students can take a big part in world
work. He believes that students are the most important group in
the world today, and that they should be given an active part in
the world's affairs.

The National Student Federation is working on a program which is to
develop student opinion on world problems. The Federation will
be held on the campus in the next few weeks.
