ROUGH TEACHERS TAMED BY FROSH
ON NORMAL FLOOR

SCORE ENDS 34 TO 29

Jacobson Forced to Use Many Substitutes, Nelson, Taylor Lose

The freshman defeat decided Lewiston's first in a mighty struggle for the Normal floor on Friday night in the high school, but it was not a one-sided affair. Wins for Normal, 34-29, were scored with real fight from the Native American, but the Normal boys were the winners in the end.

Lewiston's forward Paul Tanaka, with a 14-point lead, was a natural leader both in attack and defense. Of the three, Tanaka was the most difficult to stop because of his great size.

Lewiston's forwards were in the game, but Normal's Scott Johnson led the winning team in attack. Johnson, with 12 points, was a natural leader both in attack and defense. Of the three, Johnson was the most difficult to stop because of his great size.

The victory was Lewiston's first this season, but it was the first time they have had a chance to show their skill against a team of this caliber.

The Normal boys were congratulated for their hard work and determination and were not discouraged by the loss. They are looking forward to their next match with High School.

HOWARD TO GIVE NEW LAW COURSE

Criminal Procedure and Administration Added By

A new course is being added to the law curriculum. The course will cover Criminal Procedure and Administration and will be taught by Professor Robert Smith. The course is designed to provide a comprehensive introduction to the field of criminal procedure and administration.

The course will cover topics such as the history of criminal procedure, the role of the police, the trial process, and the factors that influence the administration of justice.

The course will meet on Tuesdays and Thursdays from 10:00 to 11:15 a.m. in Room 201 of the Law School Building. Students are encouraged to register early as the course is expected to be popular.

ENGLISH CLUB TO SEE CATHEDRAL

A group of students from the English Club will be attending the cathedral services on Saturday morning. The students will be led by Mr. Thompson, who will be giving a talk on the history of the cathedral.

The cathedral is a beautiful example of Gothic architecture and is known for its stained glass windows and marble floors. The students will have the opportunity to see the architecture and learn about the history of the cathedral.

The service will begin at 10:00 a.m. and will last for approximately one hour. Students are encouraged to arrive early to find a seat.

FOXEN HAMMER CONGIU COQUET TALENT

VANDALS BATTLE W. C. S. SATURDAY

Foxe C. M. makes First Conference Appearance

The Vandal will meet their first conference opponent when they face W. C. S. on Saturday. The Vandal team has already defeated Western in its first two games and is looking to extend its winning streak.

The game will be played at 7:00 p.m. in the Vandal Gymnasium. Tickets are available at the door and are priced at $5.00 for adults and $3.00 for students.

SECRET OF LIFE FOUND, SPURRLED

Obie Smith found the secret of life in his backyard. According to Smith, the secret is to live a healthy lifestyle and to stay active.

Smith has been practicing this lifestyle for many years and has noticed a significant improvement in his health. He has increased his physical activity and has incorporated healthy eating habits into his routine.

Smith believes that the key to a healthy lifestyle is a combination of exercise and proper nutrition. He recommends incorporating a variety of fruits and vegetables into your diet and engaging in physical activities such as walking or swimming.

In his spare time, Smith enjoys reading books on health and wellness. He is a believer in the power of knowledge and is always eager to share what he has learned with others.

Frontiers of telephony—old and new

Yesterday the natural entrance of telephone expansion was to penetrate the nation’s homes, building new lines and adding sublines.

Today finds many new “beacons” for telephone expansion—among them the homes of present subscribers, Upstair and downstairs, wherever needed, additional telephones are being handled. People are learning that there is added utility in coordinated communication.

The new and active activity was exercised by commercial development men of the Bell System. Just another example of forward planning to make telephone service more valuable.

More SLEEP for ENGINEERS

“I had a dream last night...”

Dr. David Breier, of Idaho, a noted sleep researcher, has discovered a way to help engineers get more sleep. By using a special device that mimics the natural sleep cycle, engineers can achieve deeper and more restful sleep. The device has been tested by engineers at Lockheed Martin, and the results have been impressive.

Edgeworth SMOKING TOBACCO

Edgeworth is a popular brand of smoking tobacco among engineers. The company has recently announced a new line of products, including a special blend for engineers. The blend is said to be ideal for engineers who are constantly on the go.

Involving Body of Student Directors-Eyes Employed

Ritter’s note: This is the second of a series on the interesting situation that has been brought about by the expansion of the Student Federation Congress. Congress has been held annually for the past five years, and each year has brought a new development in the student body. The Student Federation Congress is a group of students who are elected by the student body to represent them in areas of interest to students. The Congress has been instrumental in bringing about changes in the student body.

The first session of the Student Federation Congress was held in 1925. The Congress was formed as a result of a student strike that occurred in 1924. The strike was caused by a lack of funds for the student body and a lack of respect for the student body by the university. The Congress was formed to address these issues and to bring about changes in the student body.

The Student Federation Congress has been instrumental in bringing about changes in the student body. The Congress has been successful in bringing about changes in the student body because it has been able to effectively represent the student body and to bring about changes that are beneficial to the student body. The Congress has been able to effectively represent the student body because it has been able to effectively communicate with the student body and to bring about changes that are beneficial to the student body. The Congress has been successful in bringing about changes in the student body because it has been able to effectively represent the student body and to bring about changes that are beneficial to the student body.
