**The Football Season**

The 1925 football season of the Idaho Vandals is over and the Argonaut congratulates Coach Bob McMillan and the members of the team upon the fine showing made during the season. The Idaho Vandals, as ever past, have made football history by their close cooperation, their valiant fighting spirit, and the development of the highest ideals of Idaho spirit. The splendid of the University of Idaho and their team.

A football season at Idaho is not measured and judged by the number of games won or lost, but by more fundamental criteria that hold true in sport as well as in the battle of life. Earning in the way the Vandals have done, it is significant that the victory is not so important as the way in which the battle is fought, the spirit of the players. It is said that a team is as it appears, and the giving of all that is impossible and just for victory.

We have been faced one after the future with new hopes and bolder ambitions in our hearts. Every year brings in brighter prospects and greater realizations not only in sport but in every other field of university activity.

A College Education means to the average student? To the thoughtful it may mean the stepping stone to a life rich in service and in cultural enjoyment and discrimination. To the less thoughtful it may mean merely a more or less pleasant way to pad out four years of one's existence. The college student who gains the path towards knowledge with no definite purpose or destination is probably a large part of the sort he has been and is the destroyer of the whole college. His presence is as injurious to the life of any institution as is his absence. According to William J. Welch, a college education should be for the following reasons:

1. To be at home in all lands and ages; to be quick to recognize a familiar acquaintance and an intimate friend; to gain a standard for the appreciation of all the work of the world and the wisdom of the ages, and to be able to share the common interests of men.

The following points are of great importance:

1. To be at home in all lands and ages; to be quick to recognize a familiar acquaintance and an intimate friend; to gain a standard for the appreciation of all the work of the world and the wisdom of the ages, and to be able to share the common interests of men.

2. To learn the history of the world and the wisdom of the ages, and to be able to share the common interests of men.

3. To be at home in all lands and ages; to be quick to recognize a familiar acquaintance and an intimate friend; to gain a standard for the appreciation of all the work of the world and the wisdom of the ages, and to be able to share the common interests of men.

4. To be at home in all lands and ages; to be quick to recognize a familiar acquaintance and an intimate friend; to gain a standard for the appreciation of all the work of the world and the wisdom of the ages, and to be able to share the common interests of men.

The Lure of Lovely Lingerie

There is an indescribable loveliness about those silk underthings. Soft and sheer, they are a delight to the eye and a comfort to the wearer—a breath of warmth and softness.

Fine as the haze of June twilight—yet surprisingly durable—this lingerie will retain its lustrous loveliness despite many launderings.

In many rainbow tints and colors this year on tap, these are the silks that you are sure to want. At W. E. Strang's, we have them in quality, price and patterns.
