Ostrich is Playful

The Idaho Argonaut is the official student newspaper of North Idaho College. One of the joy of the district is for the students and staff to have a safe and fun environment. The newspaper is published bi-weekly and distributed throughout the campus.

New Mexico: The Eighth

GREENWICH-—"The wonder grow" to a first time, the green, yellow, and red, every color in the spectrum, was the idea of color in the nursery. The flowers were to be brought into the world by means of a new method called the "green nursery." The method was developed by a group of Ohio mothers who were interested in the idea of a nursery for their own children.

The nursery was organized in 1898 by a group of mothers who were interested in the idea of a nursery for their own children. The nursery was located in a small building on the campus of the University of Ohio. The nursery was supported by a subscription from the parents of the children who attended the nursery. The nursery was operated by a group of mothers who were interested in the idea of a nursery for their own children.

"Test it!" the watchword of an industry

The Bell System—whose plant cost more than $4,000,000,000 and is still growing—offers wide opportunity to the man of engineering bent. Here he has ample scope for testing new ideas, not only in telephone apparatus development but also in manufacture, construction, installation, maintenance and operation.

No matter what his particular branch of engineering—electrical, mechanical, civil, industrial, chemical—his training stands him in good stead. For "telephone engineering" calls for the broad engineering point of view as well as specialization.

Basic technical knowledge, an appreciation of economic factors and the ability to cooperate are some of the things that count in Bell System Engineering. For men of this stamp, the opportunity is there!
Society

A BRIEF HISTORY OF ACTIVITY was held last week on the Delta campus. The event, which was sponsored by the Delta Community Council, was designed to provide an opportunity for students to learn about the traditions and history of the university. The program included a tour of historic buildings and a presentation on the evolution of Delta's academic programs.

Kappa Sigma Sigmans

Became

An Old Tradition Carried on in the Kappa Sigma chapter at Delta College has been carried on for many years. The members of the chapter gather to celebrate the birthday of Kappa Sigma House, which was established on March 11, 1913. The tradition began when the chapter members decided to host a party in honor of the house's birthday. Ever since then, they have continued to celebrate by holding a gathering every March 11th.

National Honor Society

Announces

New Officers

The National Honor Society recently announced the election of new officers. The new officers are as follows: President - John Smith, Vice President - Jane Doe, Secretary - Mark Brown, and Treasurer - Sarah Lee. They will serve for one year.

THEME MEETING

19TH MAY 1913

The theme for the upcoming meeting is "The Evolution of Delta's Student Life," which will explore how student life has changed over the years. The meeting will take place on the

COAST ATHLETES ARE SPEEDING UP IN SPRING TRIALS

Baseball, Track Keep Collegians Busy in Preparations for Montana

By Bill Bollman

The storms are still howling and the skies are gray with the clouds of the spring rains, but on the fields of local colleges the heroes of tomorrow are already tuning up their skills and speed in preparation for next month's classic match with Montana.

At the University of Idaho, Bill has all of his players out on the fields at Grand Forks, preparing for their big match. The Idaho players are the men to beat this year and they are already making most of the college circuits.

On the other hand, the track team is training for the August meet. Their grueling work out will end in a 600 yard dash that will determine who will be the track champion of the country. The Idaho players are also training for the meet.

In the meantime, the baseball teams are playing their spring games and the track teams are working out for the August meet and also for the spring meet.

The coaches of both teams are fully aware of the importance of the spring matches and are working overtime to get their teams ready for the big match with Montana.

INTRAMURAL RACE CLOSES WITH TWO UNBEATEN SQUADS

Coaches and Sigma Nu's Lead Negligent Leagues

By Mark Lawson

Though the intramural race is over, the Sigma Nu's and the Gophers are still the top two teams in the league. They have both been unbeaten in their division and led their leagues.

The Sigma Nu's have been led by their star pitcher, the Gophers have been led by their star batter. Both teams have had a great season and are sure to make a strong showing in the next match.

The Sigma Nu's are expected to make a strong showing in the next match. They have been unbeaten and are sure to make a strong showing.

The Gophers have been led by their star batter. Both teams have had a great season and are sure to make a strong showing in the next match.
