SLEEPER SAM

O-So-Soft, Y. Everybody, A. Especially, the young ladies of the University of Idaho, who have been in a daze for the past several weeks, have been pronouncing their names with the utmost care and attention, for fear that any sound will be interpreted as a signal to start the grueling week off to a flying start.

And yet, who is to blame? The weather has been cold and dreary, the classes have been long and tedious, and the exams have been a trying experience.

But don’t let these circumstances get the best of you! Remember, you are the future of the world, and it is up to you to make the most of your time on this earth.

Bury the Hatchet

Well, it’s all over at last! The Argument is over, and the students are free to enjoy the rest of the week. I, for one, am looking forward to a week of relaxed study, fun, and relaxation.

The atmosphere on campus has been anything but tranquil during the past few weeks. The students have been divided into two camps, those who support the Argument and those who oppose it. The arguments have been heated and passionate, with each side trying to prove their point.

But now that the Argument is over, I feel that the students should come together and bury the hatchet. We are all united in our pursuit of knowledge, and we should work together to achieve our common goals.

Almost a fraternity man. Almost a class leader. And on the tough college courses, he almost made the grade. What was wrong? Loss of energy, little enthusiasm, lack of appetite—signs of a nervous breakdown. Personalities are changed. Class and campus life are seriously handicapped.

You can banish constipation so easily. Just eat a delicious celery. Kelly’s All-Bran. Two tablespoonfuls daily are guaranteed to give relief. Ask that it be served at your fraternity house or campus restaurant.

If you find the words you are looking for under the reading lamp...

Big game is big game whether you hunt it yourself or shear the shell from an open book or the silver screen. Likewise, a good cigarette is a smoke. What you saw in Chesterfield is what you saw in congress — mild and better tobacco — nothing else! The right one is there because the tobaccos are right.
