Sports and Bullfests Top List of Campus Pastimes

“Everything from playing tennis to shooting sports was given a whirl by the horde of college students in a recent informal survey. ‘What do you do on your days off?’ was the question asked of a score of students, both men and women, dressed in their finest and finest, who enjoyed the sport and sporty days of the week. Among the women’s games, tennis, curling, and polo were the most popular. The first one was preferred by the men, who referred to it as ‘bullfesto’.

Sports also ranked high among all groups, with baseball mentioned as the favorite pastime. The football games were attended by almost all of the students, while boxing and wrestling were popular among the men. The women, on the other hand, preferred dancing and socializing. Hiking was quite a popular sport among the men, while golf was the favorite of the women. It is not unusual to see one or two men and women playing tennis together, while the majority of the students prefer to play alone.

Hunting is quite a popular sport among the men, but it is not unusual to see one or two women who enjoy hunting on their own. Both men and women enjoy fishing, but the latter are more likely to go solo. Swimming is a popular activity among both men and women, with the men preferring the ocean and the women the lake. The popularity of these activities varies from year to year, but they are generally enjoyed by all.

Co-eds Stay Single

University women are determined to remain single. They are not interested in settling down until they have found someone who is worthy of their affections. It is not unusual to see one or two women who are engaged, but they are not the exception. The majority of the students are content with their present status.

New Library at U.S.C.

PIA—Plans for the new library at the University of Southern California were announced by President R. D. Johnson. The new building will house the library and will be constructed in the architecture of the school.

P.E. at U. of W. Cut

P.E. at the University of Washington was cut by 15% this year. The decision was made after a careful study of the physical education curriculum. The university officials believe that the cuts will not affect the quality of the education, but they will have to be made to save money. The cuts will affect both men and women students.

Epidemic A.M.A.

An epidemic of food poisoning has broken out at the University of Iowa. Many of the students have been hospitalised. The cause of the epidemic is unknown, but it is believed to be related to the food supply. The university officials are working to find the source of the epidemic and to prevent its spread.
$5,000

In congratulating the winners in the Camel Contest, we want at the same time to thank most cordially the approximately million men and women who dispensed their friendly interest by sending an entry.

We wish also to thank the millions of smokers throughout the country for the appreciation they have shown for our new Humidor Pack as evidenced by the notable increase in the sale of Camel cigarettes.

By means of this dust-proof, germ-proof, moisture-proof Cellophane wrapping the rich aroma and full flavor of each and every Camel are protected from air, dust and moisture. Camel Pb.5000.00
