EQUETTE

We need a date for the annual meeting of the Dramatics. This meeting is supposed to be held next Saturday, but the exact date has not been determined. The meeting will be held at the school and will be open to all students. The agenda for the meeting will include discussions of the proposed amendments to the By-Laws. The amendments are designed to improve the functioning of the Dramatics and to ensure fair participation by all members.

The amendments include the following:

1. Amendment A: This amendment proposes to change the voting procedure to ensure that all members have an equal say in the decision-making process.
2. Amendment B: This amendment aims to clarify the responsibilities of the executive committee.
3. Amendment C: This amendment seeks to introduce new procedures for selecting the Dramatics' officers.

The amendments will be discussed at the meeting, and a vote will be taken to decide whether they should be adopted.

The meeting is an important opportunity for all members to express their views and to contribute to the future of the Dramatics. It is highly recommended that all members attend the meeting to ensure that their voices are heard. The meeting will be held on Saturday, date to be announced. All members are encouraged to mark their calendars and to attend the meeting.

The Style Story of Spring

Told to you in these charming colors of others and yours each day—just today from 5th Avenue. Of course the prices are lower.

DEFINITE KNOWLEDGE OF "WHAT WE ARE" AND "WHERE WE ARE" IS VITAL IN BUSINESS AS A PARTIALLY OF THE RISE OF THE RIDGE. This is also true of the Bell System. The Bell System has long relied upon statistics.

These men study present and prospective industrial, economic, and social conditions in all parts of the country. They gather facts that in turn provide them with vital significance to the telephone business and guidance from them. They study and forecast the changing requirements of the public for telephone service. They estimate the probable time for new work such as radio phones to become available and necessary. They keep the estimates checked with the actual work so that when expansion becomes evident it can be handled with less delay.

Only by giving every scientifically on the Bell System continues to develop along sound lines.
