DO YOU INHALE?

7 out of 10 smokers inhale knowingly, and the other 3 inhale unknowingly.

Certainly...  

The chances are it won't.  

Do you inhale? Seven out of ten smokers do it. The other three without realizing it. Every smoke breathes in some part of the smoke he or she draws out of a cigarette.

Thirdly, how important is it to be certain that your cigarette smoke is pure and clean—to be sure you don't inhale smoke laden with toxic fumes?

Do you inhale? Lucky Strike has dared to raise this much-avoided subject... but because certain impurities concealed in even the finest, mild-tobacco leaves are removed by Luckies famous purifying process. Luckies creates dust-free particles. Only Luckies are real.

Do you inhale? More than 20,000 physicians, after Luckies had been furnished them for tests, have their opinion on what smoking experience, stated that Luckies are less irritating to the throat than other cigarettes.
