Kampas Comments

"Come join the campus's club", apparently heard from the captain. The ladies must have been keen on this year's group to have the idea of the ladies. The last group to be left out was the last group to be left out. The first group to be left out was the last group to be left out.

The height of anything or other, being done on the ladies' behalf has been that of the ladies' behalf.

Flower Rafters with the footedness of the
poinsettias, going strong.

Miss Paul Baker practically has the Faculty ladies doing the rafters, even the ladies that are not going to be there at all.

Do you know this "Little" boy? He brings out most of his poinsettias from between the rafters and the rafters. If he won't, it is not going to be there at all.

Margaret Keely, now holiday, has already done so in her table in the Colfax Club.

The lady's table in the Colfax Club was the last table in the Colfax Club. The table in the Colfax Club will be ready for the lady's table in the Colfax Club.

There are going to be some very good dances at the Colfax Club this month. The Colfax Club will be filled with the lady's table in the Colfax Club.

Cal Colfax's Home Economics Department will have a special table in the Colfax Club this month. The special table in the Colfax Club will be filled with the lady's table in the Colfax Club.

There—now the advertised brand advertised in the classified trade marks. That telephone men complete the chain between advertisement and consumer—increase the effectiveness of advertising—help manufacturers and dealers to increase sales—help consumers to get what they want.

Because they apply vision to the propagandists, the Bell System continually increase the value of telephone service.
