Hawk-Eye On Duty

We are running across... Mage Thomas would be just as likely to find a dust bunny under the sink as he would a two-footed creature running across his bedroom at night... trying to eat his socks. The dust bunny, however, is known to be a bit more difficult to catch... especially when he's wearing the secret cookie snowsuit...

Bruce Macduff was shown humorously climbing a ladder yesterday to secure some drafty windows from outdoors... but his attentions were less notable than the antics of his roommate, Bob DeKoven, who was spotted in his undergarments... climbing a ladder that led to the roof... or so he claimed...

Yes, it seems that this time of year brings out the dust bunnies... and the Hawk-Eye has its work cut out for it... but we'll do our best to keep the dust bunnies from taking over the campus...
