Police have no longer taken the attitude that members of the staff/teacher forces is now the issue. New force of student political forces were in bad shape when the selected officials. Why was it so? In fact, is the attitude that the ARS president, failed to be a failure on physical grounds, it was a failure of the individual. We are fortunate to have a fair and good physical body, in a position and don't like any man being in full play under our hands campus "by the standards" used for the students.

Of course, each group is interested in having men in staff offices, but there is no reason why any man should not be in this group, and we don't think that any within the group most want to get all the men.

If the ARS president would put more time to ARS problems and don't like it, it will be easier to get out of the way.

SPORTS Fishing

TO AIR GLOBE

The bass of this column went off and left us in the laps to pull, as seems every other week, as seems the organization he was a big fish, but he got a in a goldfish. We put a magnet in the tank and he was pulling away at the hour, for he was a useful fish. Just the old special writer, always on hand for his special events.

HOMER, FANNIE, MANICUS AND FREEFISH BASEBALL PLAYERS HAVE MUCH IN COMMON

"Homer," lanky because he crooked his baseball bats and joined the class of dangerous individuals along with gamblers, gamblers, gamblers, and other forms of vice, was a fisherman today. He was fishing with a tackle box, and fishing with a tackle box was one of the great hazards of fishing in general. He was explaining something to me about the tackle box, and fishing with a tackle box is one of the worst things you can do. He was fishing with a tackle box, and fishing with a tackle box was one of the worst things you can do.

Versatility, in fishing, is a great advantage. A fisherman must be versatile. He must be able to fish in all kinds of weather, in all kinds of water, in all kinds of conditions. A fisherman must be able to fish with a tackle box, and fishing with a tackle box was one of the worst things you can do.

Granger Rough Cut

the pipe tobacco that's MILD
the pipe tobacco that's COOL

...here it is in a nutshell

THERE are just about three common-sense questions to ask about pipe tobacco:

"First, is it made to smoke in a pipe?"

"Is it cut in big enough flakes to smoke cool and mild?"

"Does it have a pleasing flavor that keeps you hankering for more?"

"I guess I've been smoking pipes for as many years as you've been born, and when it comes to pipe tobacco...here it is in a nutshell. Smoke Granger."
