Engineers Set For Big Show Saturday

All Departments Unite To Put On 'Big Time' Program; Will Be of Interest

The ball has been rolling around the College of Engineering and mining departments to prepare for the big show which will be put on by the ASUI officers. All departments have been working on individual features which will be showcased at the big show Saturday evening.

The electrical engineering department has officers who will show off their latest inventions. The mechanical engineering department will have officers who will show the machines they have built. The chemical engineering department will have officers who will show off their latest experiments. The civil engineering department will have officers who will show off their latest models of bridges and buildings.

Watch out for the signs of jangled nerves

You've noticed other people's nervous habits—and wondered why you can't learn to control them. Here's the key to think that you, too, may have habits that others may see as signs of the three of jangled nerves.

And more important than that, those habits are a sign of jangled nerves. And jangled nerves are the signal to slow down and check up on yourself.

COSTLIER TOBACCO

Cigarettes are made from our, MORE EXPENSIVE TOBACCO than any other popular brand of cigarette.

THE INHUMAN RACE to an early

There is a new threat to our
well-being—the tentacles of the
inhuman race are spreading.

This species has evolved in order to
survive, thrive, and dominate the
planet. They are relentless and
unstoppable, and their only goal is
survival and expansion.

The inhuman race is cunning and
resourceful, always adapting and
evolving to overcome any obstacle.

To combat this threat, we must
unite our efforts and stand strong.

Therefore, let us join together and
fight this inhuman race.

Only the Center Leaves – these are the Mildest Leaves

They Taste Better

So ROUND and FIRM
and FULLY PACKED that's why
you'll find Luckies do not dry out

Luckies use the mildest tobaccos—for
Luckies use only the clean center leaves—and
those are selected leaves. They
taste better. Thus smoke plays in part in
making those choice tobaccos truly
kind to your throat. It’s true!—for
throat protection. Those mellow, fine-
tasting tobaccos are cut into long,
silky, full-bodied shreds and fully
packed into every Lucky—all round,
so firm, from base to end. That’s why
Luckies “keep in condition”—
why you’ll find that Luckies do
not dry out, an important point in
every maker. You see, always in
always—Luckies are kind to your throat.
