At the next AUII assembly, held Tuesday, January 21, the bare program which attended saw fit to defeat the amendment concerning Argonaut awards by a de- clared vote. We are somewhat at a loss to explain this action inasmuch as it is one of the few bills that the inter- ested body desires. The engineering enrollment has tripled since the last time that the affairs of the university were discussed by the board of control, and the new building expected to house such an increase is under construction. It was to be expected that the state would consider a new building in its educational program.

We call upon Idaho legislators to consider their duty to the entire state and its youth rather than sectional politics and enterprises.

HAWKEYE

ON DUTY

Notice is hereby given that our regular groups are here. As we are ready to write this column we have an excellent opportunity to present our arguments. It is useless, then to attempt to present the main points of the plan now.

At present, plans for earning a gold Argonaut pin are in progress. An increasing number of satisfactory work on the part of the students will cause this requirement to be fulfilled. A letter has been received asking for the number of students who have completed the requirements for the silver Argonaut pin, which is not to be selected by a special committee.

It is obvious that a material financial saving will be affected. The number of pins given out would be greatly increased. The cost of this would increase, however, in the creation of an incentive among the students to work harder than ever in the current academic year.

The opportunity to work during the summer is of great value to the students who fulfill the requirements for an award, their interests off, and we must depend on experienced freshmen and sopho-

Moscow's Own Store

Ricks College "Gift"

We read with surprise and alarm the statement in the press last night, as follows: "Ricks College will be In House Today; 'Gift' to State Worth $250,000." A fine argument was made for the proposition that the college be given the title of a "Gift" to the people of the state. The title of "Gift" is generally used in connection with the building of churches and schools and the purchase of land for the benefit of the people.

The Ricks bill would authorize the state board of education to accept donations from individuals or institutions. A $10,000 building and a $25,000 endowment would be a minimum requirement.

At present, the state board of education is taking possession of Ricks College and its buildings.

When DAVID'S Store was founded, there was written in its policies an inflexible rule concerning the reliability of merchandise. It is not too much to say that present groups are due entirely to the policy of never selling anything—however small—that we cannot fully guarantee. And the most impressive positive evidence of the success that has come to us, lies not in its magnitude but in the ever-growing satisfaction, so freely voiced by our customers, in the reliability of their purchases.

We are proud of these letters to keep them to ourselves. It is our ambition to have you, also, feel the same confidence in us. Our hope is that there will be a David's Store in Moscow for another 40 years and longer.

SOCIETY

TUESDAY marked the midnight hour of the New Year, and the students and faculty gathered to ring in the new year with festivities and celebrations. The university community welcomed the arrival of the new year with enthusiasm, enjoying music, dancing, and a variety of cultural performances. The event was highlighted by the inauguration of the new academic year with a parade and a grand gala, where students and faculty alike were dressed in their best attire.
