To The Co-Eds

Carol Tree

To you, the co-ed, Argument! That you will find helpful will be in the form of questions. 

First: Tell me, who are the co-eds?

In answering this question you will find that the men of our university are divided into two groups: deans, and co-eds. The men who are deans are those who have been selected by the faculty as the best of their class, while the co-eds are those who have been selected by the women as the worst of their class.

Second: What is the purpose of the co-eds?

The purpose of the co-eds is to show the men that there are certain things which they cannot do without the co-eds. These things include: (a) the ability to clean a room, (b) the ability to cook a meal, (c) the ability to do laundry, and (d) the ability to do anything else that the co-eds consider necessary.

Third: What is the result of the co-eds?

The result of the co-eds is that the men will become more independent and less dependent on the co-eds. They will also become more responsible and less irresponsible.

To the co-eds, we say: We appreciate your help. We appreciate your hard work. We appreciate your dedication. We appreciate your sacrifice. We appreciate your willingness to help us. We appreciate your patience. We appreciate your kindness. We appreciate your understanding. We appreciate your love. We appreciate your support. We appreciate your friendship. We appreciate you.

Point System for A. W. S. Surpasses Program of Any Other University

Seven years ago Ailsa Young, one of the first students of the new women's program at the university, worked out a system of assigning points to each student, and hang in the going room. The system was so successful that the administration decided to adopt it. Points are given for such things as the number of students who work to be poor and their efforts to improve their status.

These Activity Groups have been formed to encourage participation in the various activities of the school. The groups include those interested in music, dramatics, and sports. The groups are divided into nine levels, with each level representing a certain number of points that can be earned by each student. The highest level is awarded to those who have earned the most points.

Music Honors Lieder in March Festival

The students, a contest in which all groups and soloists compete, and which is sponsored by the women's groups, will be held in March, according to the rules of the contest. The contest will be open to all members of the school, and the winners will be announced at a later date. The winners of the contest will be awarded certificates and prizes.

LOAN FUND CREATED FROM A. W. S. FEES

The Associated Women students, on the occasion of the first fund by women students, authorized the creation of a fund of $1000. The fund was created from the fees paid by the women students for their education. In case of need, the fund may be used to assist women students.
